CANADIAN JOURNAL OF PHYSIOLOGY AND PHARMACOLOGY

JOURNAL CANADIEN DE PHYSIOLOGIE ET PHARMACOLOGIE

VOLUME 63, 1985

Author Index / Index des Auteurs

Abeywardena, M.Y.
Influence of dietary lipids on arrhythmias and infarction after coronary artery ligation in rats
P.L. McLennan, M.Y. Abeywardena, and J.S. Charnock **1411**

Abraham, R.
Electrophysiological effects of ethmozine in perfused rabbit hearts
Peter E. Dresel, A. Ogbaghebriel, and R. Abraham **1418**

Adeagbo, A.S.O.
Evidence for a role of prostaglandin I_2 and thromboxane A_2 in the ductus venosus of the lamb
A.S.O. Adeagbo, I. Bishai, J. Lees, P.M. Olley, and F. Coceani **1101**

Adewusi, S.R.A.
On the metabolism of amygdalin. 1. The LD_{50} and biochemical changes in rats
S.R.A. Adewusi and O.L. Oke **1080**

On the metabolism of amygdalin. 2. The distribution of β-glucosidase activity and orally administered amygdalin in rats
S.R.A. Adewusi and O.L. Oke **1084**

Albright, P.S.
Valproic acid disposition in rabbits during chronic treatment with *Escherichia coli* endotoxin
J.J. Thiessen, P.S. Albright, J. Bruni, and D. Suria **315**

Allard, S.
Renal brush border membrane phosphorylation: influence of pH, cAMP and ATP concentrations, parathyroid hormone status, and dietary phosphate
Michèle G. Brunette and Serge Allard **1362**

Alleva, F.R.
Effects of 6-mercaptopurine treatment on the membrane potentials of rat skeletal muscle fibers
Phyllis Clouva-Molyvdas, Nicholas Sperelakis, Michael S. Forbes, Frederic R. Alleva, and Tibor Balazs **1271**

Allignet, E.
The metabolic response of the kidney to acute sodium lactate alkalosis
Guy Lemieux, Eduardo Junco, Raphael Perez, Christiane Lemieux, and Elizabeth Allignet **687**

Almeida, A.F.
Heterogeneous uptake of 9-β-D-arabinofuranosyladenine by mouse spleen lymphocytes
Anthony F. Almeida **1175**

Alpert, H.C.
Pathogenesis of hyperphosphatemia in lactic acidosis: disparate effects of racemic (DL-) and levo (L-) lactic acid on plasma phosphorus concentration
James R. Oster, Helen C. Alpert, and Carlos A. Vaamonde **1599**

Alvarez, J.L.
Effects of manganese chloride on the outward currents in frog atrial trabeculae
Julio L. Alvarez, Miguel García, Francisco R. Dorticós, and Jésus A. Morlans **1065**

Anderson, G.F.
Evidence for oxytocin receptors in the urinary bladder of the rabbit
Mary T. Romine and Gordon F. Anderson **287**

Anderson, G.H.
The effect of insulin deficiency, dietary protein intake, and plasma amino acid concentrations on brain amino acid levels in rats
N. Theresa Glanville and G. Harvey Anderson **487**

Angel, J.F.
Effect of weaning on the activities of glycogen synthase and phosphorylase in rat liver
Ramji L. Khandelwal, Ralph P. Braun, and Joseph F. Angel **143**

Weaning and metabolic regulation in the rat
Joseph F. Angel and Donald W. Back **538**

Aoki, T.
Hg^{2+}-induced contracture in mechanically skinned fibers of frog skeletal muscle
Takako Aoki, Toshiharu Oba, and Ken Hotta **1070**

Armour, J.A.
Preliminary observations on the effects of stimulation of cardiac nerves in man
D.A. Murphy, D.E. Johnstone, and J.A. Armour **649**

Activity of *in situ* middle cervical ganglion neurons in dogs, using extracellular recording techniques
J.A. Armour **704**

Reboun cardiovascular responses following stimulation of canine vagosympathetic complexes or cardiopulmonary nerves
J.A. Armour and W.C. Randall **1122**

Arsenault, P.
Development of enteropeptidase activity in mouse small intestine: influence of hormones
Pierre Arsenault and Daniel Ménard **472**

Athias, P.
Characterization of postjunctional adrenoceptor subtypes in isolated rat myocardial cells in culture
M. Ettaiche, P. Athias, N. Variot, and J. Klepping **1221**

Atitsé-Gbeassor, A.
Effect of nonsteroidal anti-inflammatory drugs on the microsomal monooxygenase system of rat liver
P.M. Bélanger and A. Atitsé-Gbeassor **798**

Aussedat, J.
Adenine nucleotide synthesis from inosine during normoxia and after ischaemia in the isolated perfused rat heart
J. Aussedat, M. Verdys, and A. Rossi **1159**

Aynsley Green, A.
Gastrointestinal peptides and the adaptation to extrauterine nutrition
Alan Lucas, Stephen R. Bloom, and Albert Aynsley Green **527**

Back, D.W.
Weaning and metabolic regulation in the rat
Joseph F. Angel and Donald W. Back **538**

Baer, H.P.
Effects of amino and ammonio derivatives of adenosine on smooth muscle preparations and mouse neuroblastoma adenylate cyclase
H.P. Baer and M. Morr **58**

Cytosolic enzyme leakage from isolated smooth muscle preparations
HANS P. BAER and RICHARD A. VRIEND 164

Interaction of 2′,3′-di-*O*-nitro-5′-(*N*-ethylcarboxamido)adenosine with adenosine receptors in intestinal smooth muscle
H.P. BAER, R. VRIEND, and A. MURJI 449

Adenosine receptors in smooth muscle: structure–activity studies and the question of adenylate cyclase involvement in control of relaxation
H.P. BAER and R. VRIEND 972

Baines, A.D.
Dopamine production by isolated glomeruli and tubules from rat kidneys
A.D. BAINES, R. DRAINGOVA, and C. HATCHER 155

Vagal afferent activity and renal nerve release of dopamine
N. MORGUNOV and A.D. BAINES 636

Balazs, T.
Effects of 6-mercaptopurine treatment on the membrane potentials of rat skeletal muscle fibers
PHYLLIS CLOUVA-MOLYVDAS, NICHOLAS SPERELAKIS, MICHAEL S. FORBES, FREDERIC R. ALLEVA, and TIBOR BALAZS 1271

Ball, R.O.
Time course of the total and radioactive carbon dioxide production by piglets receiving dietary [^{14}C]phenylalanine
R.O. BALL and H.S. BAYLEY 1170

Barbieri, E.J.
The release of slow-reacting substance of anaphylaxis from guinea pig lung: effects of calcium antagonists
MELISSA A. DAMIANO and EDWARD J. BARBIERI 23

Bard, H.
Physiologic modulations of the systolic time intervals in the fetal lamb
XAVIER DE MUYLDER, JEAN-CLAUDE FOURON, HARRY BARD, and JOSÉE S. LAFOND 893

Barolet, A.W.
Antagonist actions of bicuculline methiodide and picrotoxin on extrasynaptic γ-aminobutyric acid receptors
A.W. BAROLET, A. LI, S. LISKE, and M.E. MORRIS 1465

Barrington, P.L.
Effect of alkylation of tryptophan residues on the enzymatic and pharmacological properties of snake venom phospholipase A_2
ELEONORA CONDREA, KAREN R. SOONS, PEGGY L. BARRINGTON, CHEN-CHUNG YANG, and PHILIP ROSENBERG 331

Barthel, B.G.
Effects of thyroid and growth hormone deficiency, and food restriction on heart mass, with and without added stress (carboxyhemoglobinemia)
DAVID G. PENNEY and BERND G. BARTHEL 642

Barwick, S.E.
Organization of medial elastin at aortic junctions in sheep and lambs
CHARLES VAN BAARDWIJK, SHARON E. BARWICK, and MARGOT R. ROACH 855

Basu, T.K.
The conditioning effect of large doses of ascorbic acid in guinea pigs
TAPAN K. BASU 427

Bayley, H.S.
Energy intake and the nature of growth in low birth weight infants
R.K. WHYTE, H.S. BAYLEY, and J.C. SINCLAIR 565

Time course of the total and radioactive carbon dioxide production by piglets receiving dietary [^{14}C]phenylalanine
R.O. BALL and H.S. BAYLEY 1170

Beachey, D.J.
The precision and accuracy of noninvasive measurements of total body calcium in the rat
D.J. BEACHEY, M. WICKHAM, and C.E. WEBBER 1252

Beattie, W.S.
The effect of afterload on the cardiodepressor reflex response to coronary artery occlusion in dogs
E.L. FALLEN, W.S. BEATTIE, and G.A. TAIT 1560

Beaugé, F.
α_1-Adrenergic receptor involvement in norepinephrine–ethanol inhibition of rat brain Na^+-K^+ ATPase and in ethanol tolerance
N. RANGARAJ, H. KALANT, and F. BEAUGÉ 1075

Bedford, G.K.
Influence of low extracellular Ca^{2+} ions on the cardiac function changes induced by verapamil in the perfused rabbit heart
PIERRE A. FORTIER, GARY K. BEDFORD, and MIGUEL A. CHIONG 1429

Bélanger, P.M.
Effect of nonsteroidal anti-inflammatory drugs on the microsomal monooxygenase system of rat liver
P.M. BÉLANGER and A. ATITSÉ-GBEASSOR 798

Belcastro, A.N.
Effect of endurance swimming on rat cardiac myofibrillar ATPase with experimental diabetes
A.N. BELCASTRO, P. MAYBANK, M. ROSSITER, and D. SECORD 1202

Belke, C.J.
Measurement and characterization of swine uterine estradiol receptors: the effects of puberty induction on estradiol receptors and corpus luteum function
ALEXANDER D. TOLTON, DANIEL L. GRINWICH, CARL J. BELKE, and MARY M. BUHR 214

Bellward, G.D.
Characterization studies of a rat hepatic cytosolic androgen-binding protein
G.I. SUNAHARA, M.J.P. FINLAYSON, B.L. WARREN, and G.D. BELLWARD 952

Bérubé, R.
Quantitative determination of histamine metabolites by capillary gas chromatography
H. NAVERT, R. BÉRUBÉ, and A. WOLLIN 766

Bessette, F.
A method to express complex curves concisely and with high fidelity
FRANCE BESSETTE and WOLF D. SEUFERT 1033

Bialik, R.J.
Relationship between levels and uptake of serotonin and high affinity [^{3}H]imipramine recognition sites in the rat brain
PAVEL D. HRDINA, BRUCE A. PAPPAS, DAVID C.S. ROBERTS, ROBERT J. BIALIK, and CATHRINE L. RYAN 1239

Bielkiewicz, B.
The binding of [^{3}H]mepyramine to histamine H_1 receptors in monkey brain
B. BIELKIEWICZ and D.A. COOK 756

Biggs, D.F.
Mechanisms of action of sodium cromoglycate
D.F. BIGGS and V. GOEL 760

Bihler, I.
Chlormadinone acetate, a progesterone derivative that binds to the digitalis receptor, inhibits the sodium pump in the isolated rat diaphragm
IVAN BIHLER, FRANK S. LABELLA, and P.C. SAWH 44

Calcium-translocating and cardiotonic properties of oxidation products of linoleic acid
RYUNGSOON SONG KIM, IVAN BIHLER, and FRANK S. LABELLA 1392

Bishai, I.
Evidence for a role of prostaglandin I_2 and thromboxane A_2 in the ductus venosus of the lamb
A.S.O. ADEAGBO, I. BISHAI, J. LEES, P.M. OLLEY, and F. COCEANI 1101

Blaxter, T.J.
Enhanced neuronal K^+ conductance: a possible common mechanism for sedative-hypnotic drug action
P.L. CARLEN, N. GUREVICH, M.F. DAVIES, T.J. BLAXTER, and M. O'BEIRNE 831

Bloom, S.R.
Gastrointestinal peptides and the adaptation to extrauterine nutrition
ALAN LUCAS, STEPHEN R. BLOOM, and ALBERT AYNSLEY GREEN 527

Bolger, G.T.
Ca^{2+} channel antagonist actions in bladder smooth muscle: comparative pharmacologic and [^{3}H]nitrendipine binding studies
F.B. YOUSIF, G.T. BOLGER, A. RUZYCKY, and D.J. TRIGGLE 453

Bonen, A.
The in vitro effect of corticosterone on insulin binding and glucose metabolism in mouse skeletal muscles
M.H. TAN and A. BONEN 1133

Booij, L.H.D.J.
The in vitro effects of benzodiazepines on the rat diaphragm. Structure–activity relationships
JACQUES J. DRIESSEN, JAN VAN EGMOND, TOM B. VREE, LEO H.D.J. BOOIJ, and JAN F. CRUL 444

Borum, P.R.
Role of carnitine during development
PEGGY R. BORUM 571

Bouchard, C.
Skeletal muscle histochemical and biochemical characteristics in sedentary male and female subjects
J.A. SIMONEAU, G. LORTIE, M.R. BOULAY, M.-C. THIBAULT, G. THÉRIAULT, and C. BOUCHARD 30

Boulay, M.R.
Skeletal muscle histochemical and biochemical characteristics in sedentary male and female subjects
J.A. SIMONEAU, G. LORTIE, M.R. BOULAY, M.-C. THIBAULT, G. THÉRIAULT, and C. BOUCHARD 30

Bourrier, T.
Metabolic and hormonal effects of test meals with various protein contents in pigs
A. RÉRAT, J.A. CHAYVIALLE, J. KANDÉ, P. VAISSADE, P. VAUGELADE, and T. BOURRIER 1547

Braun, R.P.
Effect of weaning on the activities of glycogen synthase and phosphorylase in rat liver
RAMJI L. KHANDELWAL, RALPH P. BRAUN, and JOSEPH F. ANGEL 143

Breedon, T.H.
Differential pharmacokinetics for oral and intraperitoneal administration of ethanol to the pregnant guinea pig
D.W. CLARKE, N.A.E. STEENAART, T.H. BREEDON, and J.F. BRIEN 169

Bressler, B.H.
Changes in isometric contractile properties of extensor digitorum longus and soleus muscles of C57BL/6J mice following denervation
D.M.S. WEBSTER and B.H. BRESSLER 681

Tension responses of frog skeletal muscle to ramp and step length changes
BERNARD H. BRESSLER 1617

Brien, J.F.
Differential pharmacokinetics for oral and intraperitoneal administration of ethanol to the pregnant guinea pig
D.W. CLARKE, N.A.E. STEENAART, T.H. BREEDON, and J.F. BRIEN 169

A comparative study of the inhibition of hepatic aldehyde dehydrogenases in the rat by methyltetrazolethiol, calcium carbimide, and disulfiram
J.F. BRIEN, G.S. TAM, R.J. CAMERON, N.A.E. STEENAART, and C.W. LOOMIS 438

Brockman, R.P.
Effect of phentolamine on the insulin, glucagon, and glucose responses to exercise in adrenal-denervated sheep
RONALD P. BROCKMAN 346

Role of insulin in regulating hepatic gluconeogenesis in sheep
RONALD P. BROCKMAN 1460

Brosnan, J.T.
Regional and subcellular distribution of enzymes of branched-chain amino acid metabolism in brains of normal and diabetic rats
MARGARET E. BROSNAN, ANN LOWRY, YASMIN WASI, MARTIN LOWRY, and JOHN T. BROSNAN 1234

Brosnan, M.E.
Regional and subcellular distribution of enzymes of branched-chain amino acid metabolism in brains of normal and diabetic rats
MARGARET E. BROSNAN, ANN LOWRY, YASMIN WASI, MARTIN LOWRY, and JOHN T. BROSNAN 1234

Brunette, M.G.
Renal sodium transport in vitamin D resistant hypophosphatemic rickets
MICHÈLE G. BRUNETTE, GHAZI EL MERNISSI, and ALAIN DOUCET 1339

Renal brush border membrane phosphorylation: influence of pH, cAMP and ATP concentrations, parathyroid hormone status, and dietary phosphate
MICHÈLE G. BRUNETTE and SERGE ALLARD 1362

Bruni, J.
Valproic acid disposition in rabbits during chronic treatment with *Escherichia coli* endotoxin
J.J. THIESSEN, P.S. ALBRIGHT, J. BRUNI, and D. SURIA 315

Buchan, A.M.J.
Autoradiographic localization of binding sites for atrial natriuretic factor
H.P. VON SCHROEDER, E. NISHIMURA, C.H.S. MCINTOSH, A.M.J. BUCHAN, N. WILSON, and J.R. LEDSOME 1373

Buhr, M.M.
Measurement and characterization of swine uterine estradiol receptors: the effects of puberty induction on estradiol receptors and corpus luteum function
ALEXANDER D. TOLTON, DANIEL L. GRINWICH, CARL J. BELKE, and MARY M. BUHR 214

Burba, J.V.
Inhibition of monoamine oxidase by metaiodobenzylguanidine, a new radiodiagnostic agent
J.V. BURBA 166

Buster, J.E.
Induction of premature delivery in sheep following infusion of cortisol to the fetus. I. The effect of maternal administration of progestagens
G. JENKIN, G. JORGENSEN, G.D. THORBURN, J.E. BUSTER, and P.W. NATHANIELSZ 500

Cain, S.M.
The role of aortic chemoreceptors during severe CO hypoxia
C.E. KING, S.M. CAIN, and C.K. CHAPLER 509

Hindlimb vascular responses to sympathetic augmentation during acute anemia
STEPHEN M. CAIN and C.K. CHAPLER 782

Peripheral vascular responses to hypoxic hypoxia after aortic denervation
C.E. KING, S.M. CAIN, and C.K. CHAPLER 1197

Cameron, R.J.
A comparative study of the inhibition of hepatic aldehyde dehydrogenases in the rat by methyltetrazolethiol, calcium carbimide, and disulfiram
J.F. BRIEN, G.S. TAM, R.J. CAMERON, N.A.E. STEENAART, and C.W. LOOMIS 438

Campeau, N.
Catecholamine release and ventricular arrhythmias during coronary occlusion and reperfusion in the dog
DIANE GODIN, NICOLE CAMPEAU, RÉGINALD NADEAU, RENÉ CARDINAL, and JACQUES DE CHAMPLAIN 1088

Cardinal, R.
Catecholamine release and ventricular arrhythmias during coronary occlusion and reperfusion in the dog
DIANE GODIN, NICOLE CAMPEAU, RÉGINALD NADEAU, RENÉ CARDINAL, and JACQUES DE CHAMPLAIN 1088

Carlen, P.L.
Enhanced neuronal K^+ conductance: a possible common mechanism for sedative-hypnotic drug action
P.L. CARLEN, N. GUREVICH, M.F. DAVIES, T.J. BLAXTER, and M. O'BEIRNE **831**

Carlsen, R.C.
A fast-twitch oxidative-glycolytic muscle with a robust inward calcium current
RICHARD C. CARLSEN, DOUGLAS B. LARSON, and DONAL A. WALSH **958**

Carro-Ciampi, G.
N-Glucosidation of amobarbital in the cat
GIOVANNA CARRO-CIAMPI, MALLÉ JURIMA, DEZSO KADAR, BING K. TANG, and WERNER KALOW **1263**

Cawkwell, M.E.
Guar gum consumption in adolescent and adult rats: short- and long-term metabolic effects
NORMAN S. TRACK, MARGARET E. CAWKWELL, BETH C. CHIN, SUSAN S. CHIU, SEAN A. HABERER, and CHRISTOPHER R. HONEY **1113**

Cawthorpe, D.R.L.
The effects of small cardioactive peptide B on the isolated heart and gill of *Aplysia californica*
D.R.L. CAWTHORPE, J. ROSENBERG, W.F. COLMERS, K. LUKOWIAK, and G.I. DRUMMOND **918**

Cervenko, F.W.
Analgesia and autonomic function following intrathecal administration of morphine and norepinephrine to the rat
C.W. LOOMIS, F.W. CERVENKO, K. JHAMANDAS, M. SUTAK, and B. MILNE **656**

Challis, J.R.G.
Changes in pituitary responses to synthetic ovine corticotrophin releasing factor in fetal sheep
LAURIE J. NORMAN, STEPHEN J. LYE, MARY E. WLODEK, and J.R.G. CHALLIS **1398**

Chapler, C.K.
The role of aortic chemoreceptors during severe CO hypoxia
C.E. KING, S.M. CAIN, and C.K. CHAPLER **509**

Hindlimb vascular responses to sympathetic augmentation during acute anemia
STEPHEN M. CAIN and C.K. CHAPLER **782**

Peripheral vascular responses to hypoxic hypoxia after aortic denervation
C.E. KING, S.M. CAIN, and C.K. CHAPLER **1197**

Chapman, K.R.
Thoracoabdominal motion during hypercapnia, hypoxia, and exercise
K.R. CHAPMAN, A. PERL, N. ZAMEL, and A.S. REBUCK **188**

Chapman, R.W.
Effect of verapamil on ventilation and chemical control of breathing in anesthetized rats
RICHARD W. CHAPMAN **1608**

Charnock, J.S.
Influence of dietary lipids on arrhythmias and infarction after coronary artery ligation in rats
P.L. MCLENNAN, M.Y. ABEYWARDENA, and J.S. CHARNOCK **1411**

Chayvialle, J.A.
Metabolic and hormonal effects of test meals with various protein contents in pigs
A. RÉRAT, J.A. CHAYVIALLE, J. KANDÉ, P. VAISSADE, P. VAUGELADE, and T. BOURRIER **1547**

Cheema-Dhadli, S.
Effect of the blood lactate concentration on renal glutamine metabolism in dogs with chronic metabolic acidosis
MITCHELL L. HALPERIN, CHING B. CHEN, and SURINDER CHEEMA-DHADLI **1570**

Chen, C.B.
Substrate utilization by the distal nephron in dogs with chronic metabolic acidosis: studies with ethacrynic acid
MITCHELL L. HALPERIN and CHING B. CHEN **1565**

Effect of the blood lactate concentration on renal glutamine metabolism in dogs with chronic metabolic acidosis
MITCHELL L. HALPERIN, CHING B. CHEN, and SURINDER CHEEMA-DHADLI **1570**

Chin, B.C.
Guar gum consumption in adolescent and adult rats: short- and long-term metabolic effects
NORMAN S. TRACK, MARGARET E. CAWKWELL, BETH C. CHIN, SUSAN S. CHIU, SEAN A. HABERER, and CHRISTOPHER R. HONEY **1113**

Chiong, M.A.
Influence of low extracellular Ca^{2+} ions on the cardiac function changes induced by verapamil in the perfused rabbit heart
PIERRE A. FORTIER, GARY K. BEDFORD, and MIGUEL A. CHIONG **1429**

Chiu, S.S.
Guar gum consumption in adolescent and adult rats: short- and long-term metabolic effects
NORMAN S. TRACK, MARGARET E. CAWKWELL, BETH C. CHIN, SUSAN S. CHIU, SEAN A. HABERER, and CHRISTOPHER R. HONEY **1113**

Chong, C.K.
Inactivation of atrial natriuretic factor in blood
ANTHONY T. VERESS, CHEE K. CHONG, and HARALD SONNENBERG **1615**

Choo, L.K.
Failure of gallamine and pancuronium to inhibit selectively (−)-[^{3}H]-quinuclidinyl benzilate binding in guinea-pig atria
L.K. CHOO, E. LEUNG, and F. MITCHELSON **200**

Choy, P.C.
The effect of lidocaine on lysophosphatidylcholine-induced cardiac arrhythmias and cellular disturbances
KARIN J. NEUFELD, CINDY L. LEDERMAN, PATRICK C. CHOY, and RICKY Y.K. MAN **804**

Christofi, F.L.
Antagonism by theophylline of the adenosine receptor agonist 5′-*N*-ethylcarboxamidoadenosine at the guinea pig ileum
F.L. CHRISTOFI and M.A. COOK **1195**

Chu, E.B.
A novel cyclic GMP-lowering agent, LY83583, blocks carbachol-induced cyclic GMP elevation in rabbit atrial strips without blocking the negative inotropic effects of carbachol
JACK DIAMOND and EVELYN B. CHU **908**

Ciriello, J.
Effect of paraventricular nucleus lesions on cardiovascular responses elicited by stimulation of the subfornical organ in the rat
MICHAEL B. GUTMAN, JOHN CIRIELLO, and GORDON J. MOGENSON **816**

Clanachan, A.S.
Affinity of calcium channel inhibitors, benzodiazepines, and other vasoactive compounds for the nucleoside transport system
JAMES R. HAMMOND, EVAN F. WILLIAMS, and ALEXANDER S. CLANACHAN **1302**

Clandinin, M.T.
Role of diet fat in subcellular structure and function
M.T. CLANDININ, C.J. FIELD, K. HARGREAVES, L. MORSON, and E. ZSIGMOND **546**

Clarke, D.W.
Differential pharmacokinetics for oral and intraperitoneal administration of ethanol to the pregnant guinea pig
D.W. CLARKE, N.A.E. STEENAART, T.H. BREEDON, and J.F. BRIEN **169**

Clarke, H.M.
Assessing the pressure at zero flow in canine epigrastric skin flaps
HOWARD M. CLARKE and NANCY H. MCKEE **230**

Clouva-Molyvdas, P.
Effects of 6-mercaptopurine treatment on the membrane potentials of rat skeletal muscle fibers
PHYLLIS CLOUVA-MOLYVDAS, NICHOLAS SPERELAKIS, MICHAEL S. FORBES, FREDERIC R. ALLEVA, and TIBOR BALAZS **1271**

Clozel, J.P.
Influence of hypoxemia and respiratory acidosis on the plasma kinetics and tissue distribution of digoxin in the conscious dog
PATRICK DU SOUICH, JEAN-PAUL CLOZEL, CLAUDE SAUNIER, HUY ONG, DENISE HARTEMANN, TERESA GARCIA-CARMONA, and PAUL SADOUL **72**

In vitro effects of hypoxia and (or) hypercapnic acidosis on the myocardial uptake of digoxin
A. SAUTEGEAU, J.P. CLOZEL, C. SAUNIER, and D. HARTEMANN **344**

Coceani, F.
Evidence for a role of prostaglandin I_2 and thromboxane A_2 in the ductus venosus of the lamb
A.S.O. ADEAGBO, I. BISHAI, J. LEES, P.M. OLLEY, and F. COCEANI **1101**

Code, C.F.
Histamine — whither now?
CHARLES F. CODE **746**

Colmers, W.F.
The effects of small cardioactive peptide B on the isolated heart and gill of *Aplysia californica*
D.R.L. CAWTHORPE, J. ROSENBERG, W.F. COLMERS, K. LUKOWIAK, and G.I. DRUMMOND **918**

Colton, C.A.
Blockade of hyperbaric oxygen induced seizures by excitatory amino acid antagonists
CAROL A. COLTON and JOEL S. COLTON **519**

Colton, J.S.
Blockade of hyperbaric oxygen induced seizures by excitatory amino acid antagonists
CAROL A. COLTON and JOEL S. COLTON **519**

Comin, E.J.
Evidence for a secretory component in the handling of unconjugated bilirubin by the isolated perfused rat kidney
MARÍA M. ELÍAS, ELBIO J. COMIN, ELENA J. OCHOA, and EMILIO A. RODRÍGUEZ GARAY **1581**

Condrea, E.
Effect of alkylation of tryptophan residues on the enzymatic and pharmacological properties of snake venom phospholipase A_2
ELEONORA CONDREA, KAREN R. SOONS, PEGGY L. BARRINGTON, CHEN-CHUNG YANG, and PHILIP ROSENBERG **331**

Cook, D.A.
Temperature and histamine receptor function — what is really happening?
D.A. COOK, C.A. KRUEGER, and A. MICHALCHUK **751**

The binding of [^{3}H]mepyramine to histamine H_1 receptors in monkey brain
B. BIELKIEWICZ and D.A. COOK **756**

Cook, M.A.
Antagonism by theophylline of the adenosine receptor agonist 5′-*N*-ethylcarboxamidoadenosine at the guinea pig ileum
F.L. CHRISTOFI and M.A. COOK **1195**

Courneya, C.A.
Plasma vasopressin during increases and decreases in blood volume in anaesthetized dogs
J.R. LEDSOME, N. WILSON, and C.A. COURNEYA **224**

Release of atrial natriuretic peptide by atrial distension
J.R. LEDSOME, N. WILSON, C.A. COURNEYA, and A.J. RANKIN **739**

Cox, M.
Physical, chemical, and physiological characteristics of isolates of pulmonary surfactant from adult rabbits
K.M.W. KEOUGH, E. FARRELL, M. COX, G. HARRELL, and H.W. TAEUSCH, JR. **1043**

Crawford, R.D.
Benzodiazepine receptors and seizure susceptibility in epileptic fowl
T.E. FISHER, L.G. DAVIS, J.M. TUCHEK, D.D. JOHNSON, and R.D. CRAWFORD **85**

Evidence for the pharmacological relevance of benzodiazepine receptors to anticonvulsant activity
T.E. FISHER, D.D. JOHNSON, J.M. TUCHEK, and R.D. CRAWFORD **1477**

Crul, J.F.
The in vitro effects of benzodiazepines on the rat diaphragm. Structure–activity relationships
JACQUES J. DRIESSEN, JAN VAN EGMOND, TOM B. VREE, LEO H.D.J. BOOIJ, and JAN F. CRUL **444**

Cukerman, E.
The effect of growth hormone on biogenic amines in the hepatic portal circulation of the dog
M.N. HUSSAIN, A. SIREK, E. CUKERMAN, and O.V. SIREK **463**

The effect of tryptophan on biogenic amines in the hepatic portal circulation of the dog
M.N. HUSSAIN, A. SIREK, E. CUKERMAN, and O.V. SIREK **863**

Damiano, M.A.
The release of slow-reacting substance of anaphylaxis from guinea pig lung: effects of calcium antagonists
MELISSA A. DAMIANO and EDWARD J. BARBIERI **23**

Daniel, E.E.
Unusual potassium channels mediate nonadrenergic noncholinergic nerve-mediated inhibition in opossum esophagus
J. JURY, L.P. JAGER, and E.E. DANIEL **107**

Dauça, M.
Activités des hydrolases rénales au cours du développement pré et post-natal de la souris

Hemming, R.
Vanadium exposure enhances lipid peroxidation in the kidney of rats and mice
John Donaldson, Richard Hemming, and Frank LaBella **196**

Hess, M.L.
Oxygen radicals in the adult respiratory distress syndrome, in myocardial ischemia and reperfusion injury, and in cerebral vascular damage
Billy Hammond, Hermes A. Kontos, and Michael L. Hess **173**

Hlavinka, M.
Modulation of rat hepatic microsomal testosterone hydroxylases by 2,3,7,8-tetrachlorodibenzo-*p*-dioxin and related toxic isostereomers
Barbara Keys, Michelle Hlavinka, Grant Mason, and Stephen Safe **1537**

Hollenberg, M.D.
Distinct hydrodynamic forms of the insulin receptor: electrophoretic analysis of the R_I and R_{II} species
J.M. Maturo III and M.D. Hollenberg **987**

Vascular actions of epidermal growth factor–urogastrone: possible relationship to prostaglandin production
I. Muramatsu, M.D. Hollenberg, and K. Lederis **994**

Action of insulin modulated by pertussis toxin in rat adipocytes
H. Joseph Goren, John K. Northup, and Morley D. Hollenberg **1017**

Homonko, K.
Reconstituted halogenated hydrocarbon pesticide and pollutant mixtures found in human tissues: effects on the immature male Wistar rat after short-term exposure
J. Gyorkos, M.A. Denomme, B. Leece, K. Homonko, V.E. Valli, and S. Safe **36**

Honey, C.R.
Guar gum consumption in adolescent and adult rats: short- and long-term metabolic effects
Norman S. Track, Margaret E. Cawkwell, Beth C. Chin, Susan S. Chiu, Sean A. Haberer, and Christopher R. Honey **1113**

Horackova, M.
The effect of D600 on tonic tension, Na^+ inward current, and Na^+–Ca^{2+} exchange in frog heart
Magda Horackova **1404**

Horrobin, D.F.
The effects of hydrogenated coconut oil, safflower oil, and evening primrose oil on development of hypertension and sodium handling in spontaneously hypertensive rats
Masayoshi Soma, Mehar S. Manku, and David F. Horrobin **325**

Horst, M.A.
Action of agonists and antagonists on adrenergic receptors in isolated porcine coronary arteries
Mark A. Horst and Casey P. Robinson **867**

Hotke, C.
Jejunal uptake of sugars, cholesterol, fatty acids, and fatty alcohols *in vivo* in diabetic rats
C. Hotke, Y. McIntyre, and A.B.R. Thomson **1356**

Hotta, K.
Hg^{2+}-induced contracture in mechanically skinned fibers of frog skeletal muscle
Takako Aoki, Toshiharu Oba, and Ken Hotta **1070**

Hoyer, P.B.
The regulation of steroidogenesis is different in the two types of ovine luteal cells
P.B. Hoyer and G.D. Niswender **240**

Hrdina, P.D.
Relationship between levels and uptake of serotonin and high affinity [^{3}H]imipramine recognition sites in the rat brain
Pavel D. Hrdina, Bruce A. Pappas, David C.S. Roberts, Robert J. Bialik, and Cathrine L. Ryan **1239**

Hubbard, J.W.
Methoxyphenamine metabolism in rat models of human debrisoquine phenotypes
S.D. Roy, E.M. Hawes, G. McKay, J.W. Hubbard, and Kamal K. Midha **778**

Hunter, E.G.
Electrophysiological observations on diaphragm muscle from normal and dystropic hamsters
E.G. Hunter and J. Elbrink **1474**

Hussain, M.N.
The effect of growth hormone on biogenic amines in the hepatic portal circulation of the dog
M.N. Hussain, A. Sirek, E. Cukerman, and O.V. Sirek **463**

The effect of tryptophan on biogenic amines in the hepatic portal circulation of the dog
M.N. Hussain, A. Sirek, E. Cukerman, and O.V. Sirek **863**

Hwang, J.
The role of plasma lipoproteins in steroidogenic response of rat luteal cells during gonadotropin-induced refractory states
K.G. Rajendran, M. Menon, H. Peegel, J. Hwang, and K.M.J. Menon **265**

Imura, H.
Comparison of somatostatin-28 and somatostatin-14 clearance by the perfused rat liver
M. Seno, Y. Seino, Y. Takemura, S. Nishi, H. Ishida, N. Kitano, H. Imura, T. Taminato, and S. Matsukura **62**

Innis, S.M.
The role of diet during development on the regulation of adult cholesterol homeostasis
Sheila M. Innis **557**

Ishida, H.
Comparison of somatostatin-28 and somatostatin-14 clearance by the perfused rat liver
M. Seno, Y. Seino, Y. Takemura, S. Nishi, H. Ishida, N. Kitano, H. Imura, T. Taminato, and S. Matsukura 62

Ishii, K.
Acetylcholine supersensitivity in the rat heart produced by neonatal sympathectomy
Kunio Ishii, Norie Ishii, Koki Shigenobu, and Yutaka Kasuya 898

Ishii, N.
Acetylcholine supersensitivity in the rat heart produced by neonatal sympathectomy
Kunio Ishii, Norie Ishii, Koki Shigenobu, and Yutaka Kasuya 898

Itoh, S.
Potentiation of β-endorphin effects by cholecystokinin antiserum in rats
Shinji Itoh, Goro Katsuura, Kenji Yoshikawa, and Jens F. Rehfeld 81

Jager, L.P.
Unusual potassium channels mediate nonadrenergic noncholinergic nerve-mediated inhibition in opossum esophagus
J. Jury, L.P. Jager, and E.E. Daniel 107

Jansz, G.F.
The effect of prenatal treatment with busulfan on *in vitro* androgen production by testes from rats of various ages
Gwenderlyn F. Jansz and David K. Pomerantz 1155

Jaramillo, J.
Resistance of the diabetic rat nerve to ischemic inactivation
J. Jaramillo, N. Simard-Duquesne, and D. Dvornik 773

Jayakody, R.L.
Cholesterol feeding impairs endothelium-dependent relaxation of rabbit aorta
R.L. Jayakody, M.P.J. Senaratne, A.B.R. Thomson, and C.T. Kappagoda 1206

Jenkin, G.
Inhibition of progesterone secretion by a 3β-hydroxysteroid dehydrogenase inhibitor in late pregnant sheep
Graham Jenkin and Geoffrey D. Thorburn 136

Induction of premature delivery in sheep following infusion of cortisol to the fetus. I. The effect of maternal administration of progestagens
G. Jenkin, G. Jorgensen, G.D. Thorburn, J.E. Buster, and P.W. Nathanielsz 500

Jennings, D.B.
Ventilation and respiratory pattern and timing in resting awake cats
D.B. Jennings and P.C. Szlyk 148

Jhamandas, K.
Analgesia and autonomic function following intrathecal administration of morphine and norepinephrine to the rat
C.W. Loomis, F.W. Cervenko, K. Jhamandas, M. Sutak, and B. Milne 656

Johnson, D.D.
Benzodiazepine receptors and seizure susceptibility in epileptic fowl
T.E. Fisher, L.G. Davis, J.M. Tuchek, D.D. Johnson, and R.D. Crawford 85

Evidence for the pharmacological relevance of benzodiazepine receptors to anticonvulsant activity
T.E. Fisher, D.D. Johnson, J.M. Tuchek, and R.D. Crawford 1477

Johnston, M.E.A.
Temporal desensitization of rat uteri for the decidual cell reaction is abolished by cholera toxin acting by a mechanism apparently not involving adenosine 3′:5′-cyclic monophosphate
M.E. Anne Johnston and T.G. Kennedy 1052

Johnstone, D.E.
Preliminary observations on the effects of stimulation of cardiac nerves in man
D.A. Murphy, D.E. Johnstone, and J.A. Armour 649

Jones, N.L.
Rat skeletal muscle triacylglycerol utilization during exhaustive swimming
Lawrence L. Spriet, Sandra J. Peters, George J.F. Heigenhauser, and Norman L. Jones 614

Jorgensen, G.
Induction of premature delivery in sheep following infusion of cortisol to the fetus. I. The effect of maternal administration of progestagens
G. Jenkin, G. Jorgensen, G.D. Thorburn, J.E. Buster, and P.W. Nathanielsz 500

Junco, E.
The metabolic response of the kidney to acute sodium lactate alkalosis
Guy Lemieux, Eduardo Junco, Raphael Perez, Christiane Lemieux, and Elizabeth Allignet 687

Jurima, M.
N-Glucosidation of amobarbital in the cat
Giovanna Carro-Ciampi, Mallé Jurima, Dezso Kadar, Bing K. Tang, and Werner Kalow 1263

Jury, J.
Unusual potassium channels mediate nonadrenergic noncholinergic nerve-mediated inhibition in opossum esophagus
J. Jury, L.P. Jager, and E.E. Daniel 107

Kadar, D.
N-Glucosidation of amobarbital in the cat
Giovanna Carro-Ciampi, Mallé Jurima, Dezso Kadar, Bing K. Tang, and Werner Kalow 1263

Kalant, H.
α_1-Adrenergic receptor involvement in norepinephrine–ethanol inhibition of rat brain $Na^+ - K^+$ ATPase and in ethanol tolerance
N. Rangaraj, H. Kalant, and F. Beaugé 1075

The 1985 Upjohn Award Lecture. Tolerance, learning, and neurochemical adaptation
H. Kalant 1485

Kalow, W.
N-Glucosidation of amobarbital in the cat
Giovanna Carro-Ciampi, Mallé Jurima, Dezso Kadar, Bing K. Tang, and Werner Kalow 1263

Kandé, J.
Metabolic and hormonal effects of test meals with various protein contents in pigs
A. Rérat, J.A. Chayvialle, J. Kandé, P. Vaissade, P. Vaugelade, and T. Bourrier 1547

Kappagoda, C.T.
Cholesterol feeding impairs endothelium-dependent relaxation of rabbit aorta
R.L. Jayakody, M.P.J. Senaratne, A.B.R. Thomson, and C.T. Kappagoda 1206

Kasuya, Y.
Acetylcholine supersensitivity in the rat heart produced by neonatal sympathectomy
Kunio Ishii, Norie Ishii, Koki Shigenobu, and Yutaka Kasuya 898

Katsuura, G.
Potentiation of β-endorphin effects by cholecystokinin antiserum in rats
Shinji Itoh, Goro Katsuura, Kenji Yoshikawa, and Jens F. Rehfeld 81

Keelan, M.
Effect of chronic ethanol and food deprivation on intestinal villus morphology and brush border membrane content of lipid and marker enzymes
M. Keelan, K. Walker, and A.B.R. Thomson 1312

Resection of rabbit ileum: effect on brush border membrane enzyme markers and lipids
M. Keelan, K. Walker, and A.B.R. Thomson 1528

Kendal, W.S.
The recovery of organelle transport and microtubule integrity in myelinated axons that are frozen and thawed
R.S. Smith and W.S. Kendal 292

Kennedy, T.G.
Temporal desensitization of rat uteri for the decidual cell reaction is abolished by cholera toxin acting by a mechanism apparently not involving adenosine 3′:5′-cyclic monophosphate
M.E. Anne Johnston and T.G. Kennedy **1052**

Keough, K.M.W.
Physical, chemical, and physiological characteristics of isolates of pulmonary surfactant from adult rabbits
K.M.W. Keough, E. Farrell, M. Cox, G. Harrell, and H.W. Taeusch, Jr. **1043**

Keys, B.
Modulation of rat hepatic microsomal testosterone hydroxylases by 2,3,7,8-tetrachlorodibenzo-*p*-dioxin and related toxic isostereomers
Barbara Keys, Michelle Hlavinka, Grant Mason, and Stephen Safe **1537**

Khandelwal, R.L.
Effect of weaning on the activities of glycogen synthase and phosphorylase in rat liver
Ramji L. Khandelwal, Ralph P. Braun, and Joseph F. Angel **143**

Isolation and characterization of calcineurin from bovine brain
Ramesh C. Gupta, Ramji L. Khandelwal, and Prakash V. Sulakhe **1000**

Khoury, N.
Renal extraction of glutamine from plasma and whole blood: studies in dogs and rats
P. Vinay, N. Khoury, M. Soowamber, and A. Gougoux **886**

Kim, B.K.
A novel therapeutic approach for reversal of left ventricular hypertrophy and blood pressure control in hypertensive patients treated with alpha-methyldopa or propranolol
P.G. Fernandez, W. Snedden, B.K. Kim, and C.C. Lee **304**

Kim, R.S.
Calcium-translocating and cardiotonic properties of oxidation products of linoleic acid
Ryungsoon Song Kim, Ivan Bihler, and Frank S. LaBella **1392**

King, C.E.
The role of aortic chemoreceptors during severe CO hypoxia
C.E. King, S.M. Cain, and C.K. Chapler **509**

Peripheral vascular responses to hypoxic hypoxia after aortic denervation
C.E. King, S.M. Cain, and C.K. Chapler **1197**

King, K.A.
Central vasopressin in the modulation of catecholamine release in conscious rats
Kathryn A. King, Gordon Mackie, Catherine C.Y. Pang, and Richard A. Wall **1501**

Kitano, N.
Comparison of somatostatin-28 and somatostatin-14 clearance by the perfused rat liver
M. Seno, Y. Seino, Y. Takemura, S. Nishi, H. Ishida, N. Kitano, H. Imura, T. Taminato, and S. Matsukura **62**

Kizawa, Y.
Mechanism of action of nicotine on crab-eating monkey isolated bronchial smooth muscle
Yasuo Kizawa and Issei Takayanagi **1471**

Klein, LR.
Effect of $1,25(OH)_2D_3$ on the relative contributions of skeletal ^{45}Ca and intestinal ^{40}Ca to blood calcium in normal and thyroparathyroidectomized dogs
LeRoy Klein and Kam M. Wong **606**

Klepping, J.
Characterization of postjunctional adrenoceptor subtypes in isolated rat myocardial cells in culture
M. Ettaiche, P. Athias, N. Variot, and J. Klepping **1221**

Kontos, H.A.
Oxygen radicals in the adult respiratory distress syndrome, in myocardial ischemia and reperfusion injury, and in cerebral vascular damage
Billy Hammond, Hermes A. Kontos, and Michael L. Hess **173**

Krueger, C.A.
Temperature and histamine receptor function — what is really happening?
D.A. Cook, C.A. Krueger, and A. Michalchuk **751**

Kubo, T.
Involvement of the ventrolateral medulla in the mediation of pressor responses of the rat to afferent vagal stimulation
T. Kubo **1612**

Kurobane, I.
Association of the positive inotropic action of ouabain with a second species of digitalis receptors
Itsuo Kurobane, Dhirendra L. Nandi, and George T. Okita **476**

Kuroshima, A.
Effect of food restriction on cold adaptability of rats
Akihiro Kuroshima and Takehiro Yahata **68**

Kwan, C.Y.
Dysfunction of calcium handling by smooth muscle in hypertension
C.Y. Kwan **366**

LaBella, F.S.
Chlormadinone acetate, a progesterone derivative that binds to the digitalis receptor, inhibits the sodium pump in the isolated rat diaphragm
Ivan Bihler, Frank S. LaBella, and P.C. Sawh **44**

Vanadium exposure enhances lipid peroxidation in the kidney of rats and mice
John Donaldson, Richard Hemming, and Frank LaBella **196**

Calcium-translocating and cardiotonic properties of oxidation products of linoleic acid
Ryungsoon Song Kim, Ivan Bihler, and Frank S. LaBella **1392**

Lacuara, J.L.
Modifications evoked by piretanide in the mechanical activity of cardiovascular tissues
J.L. Lacuara, R.D. Ruiz, and M. Fiol de Cuneo **283**

Lafond, J.S.
Physiologic modulations of the systolic time intervals in the fetal lamb
Xavier De Muylder, Jean-Claude Fouron, Harry Bard, and Josée S. Lafond **893**

Laher, I.
A review of changes in vascular smooth muscle functions in hypertension: isolated tissue versus in vivo studies
C.R. Triggle and I. Laher **355**

Langille, B.L.
Compliance characteristics of the hind-limb arterial system of normal and hypertensive rabbits
B. Lowell Langille and Catherine Osberg **1057**

Larson, D.B.
A fast-twitch oxidative-glycolytic muscle with a robust inward calcium current
Richard C. Carlsen, Douglas B. Larson, and Donal A. Walsh **958**

Lathrop, D.A.
Electromechanical characterization of the effects of racemic sotalol and its optical isomers on isolated canine ventricular trabecular muscles and Purkinje strands
David A. Lathrop **1506**

Lautt, W.W.
The use of 8-phenyltheophylline as a competitive antagonist of adenosine and an inhibitor of the intrinsic regulatory mechanism of the hepatic artery
W. Wayne Lautt and Dallas J. Legare **717**

Leal-Cardoso, J.H.
Excitation–contraction coupling in crab muscle fibers with swollen T tubules
J.H. Leal-Cardoso and G. Suarez-Kurtz **879**

Lederis, K.
Vascular actions of epidermal growth factor–urogastrone: possible relationship to prostaglandin production
I. Muramatsu, M.D. Hollenberg, and K. Lederis 994

Lederman, C.L.
The effect of lidocaine on lysophosphatidylcholine-induced cardiac arrhythmias and cellular disturbances
Karin J. Neufeld, Cindy L. Lederman, Patrick C. Choy, and Ricky Y.K. Man 804

Ledsome, J.R.
Plasma vasopressin during increases and decreases in blood volume in anaesthetized dogs
J.R. Ledsome, N. Wilson, and C.A. Courneya 224

Release of atrial natriuretic peptide by atrial distension
J.R. Ledsome, N. Wilson, C.A. Courneya, and A.J. Rankin 739

Autoradiographic localization of binding sites for atrial natriuretic factor
H.P. von Schroeder, E. Nishimura, C.H.S. McIntosh, A.M.J. Buchan, N. Wilson, and J.R. Ledsome 1373

Lee, C.C.
A novel therapeutic approach for reversal of left ventricular hypertrophy and blood pressure control in hypertensive patients treated with alpha-methyldopa or propranolol
P.G. Fernandez, W. Snedden, B.K. Kim, and C.C. Lee 304

Lee, R.M.K.W.
Primary versus secondary structural changes of the blood vessels in hypertension
Robert M.K.W. Lee and John S. Smeda 392

Leece, B.
Reconstituted halogenated hydrocarbon pesticide and pollutant mixtures found in human tissues: effects on the immature male Wistar rat after short-term exposure
J. Gyorkos, M.A. Denomme, B. Leece, K. Homonko, V.E. Valli, and S. Safe 36

Leenen, F.H.H.
Effects of minoxidil on blood pressure and cardiac hypertrophy in two-kidney, one-clip hypertensive rats
Paul Fenje and Frans H.H. Leenen 161

Blood pressure responsiveness during the development of hypertension in the conscious spontaneously hypertensive rat
Corey B. Toal and Frans H.H. Leenen 1258

Lees, J.
Evidence for a role of prostaglandin I_2 and thromboxane A_2 in the ductus venosus of the lamb
A.S.O. Adeagbo, I. Bishai, J. Lees, P.M. Olley, and F. Coceani 1101

Lefkowitz, R.J.
Sensitization of frog erythrocyte adenylate cyclase system by tumor-promoting phorbol diesters
Ponnal Nambi, David R. Sibley, and Robert J. Lefkowitz 983

Legare, D.J.
The use of 8-phenyltheophylline as a competitive antagonist of adenosine and an inhibitor of the intrinsic regulatory mechanism of the hepatic artery
W. Wayne Lautt and Dallas J. Legare 717

Lemieux, C.
The metabolic response of the kidney to acute sodium lactate alkalosis
Guy Lemieux, Eduardo Junco, Raphael Perez, Christiane Lemieux, and Elizabeth Allignet 687

Lemieux, G.
The metabolic response of the kidney to acute sodium lactate alkalosis
Guy Lemieux, Eduardo Junco, Raphael Perez, Christiane Lemieux, and Elizabeth Allignet 687

Lemoyne, M.
Variations in plasma motilin, somatostatin, and pancreatic polypeptide concentrations and the interdigestive myoelectric complex in dog
P. Poitras, M. Lemoyne, D. Tasse, L. Trudel, T. Yamada, and I.L. Taylor 1495

Leslie, R.A.
Noradrenergic alpha$_2$ binding sites in vagal dorsal motor nucleus and nucleus tractus solitarius: autoradiographic localization
H.A. Robertson and R.A. Leslie 1190

Leung, E.
Failure of gallamine and pancuronium to inhibit selectively by (−)-[^{3}H]-quinuclidinyl benzilate binding in guinea-pig atria
L.K. Choo, E. Leung, and F. Mitchelson 200

Leung, P.C.K.
Mechanisms of gonadotropin-releasing hormone and prostaglandin action on luteal cells
Peter C.K. Leung 249

Effects of prostaglandins and luteinizing hormone-releasing hormone on phosphatidic acid – phosphatidylinositol labeling in rat granulosa cells
Takashi Minegishi and Peter C.K. Leung 320

Levy, M.
Renal response to hemorrhage in dogs with subacute biliary obstruction
M. Levy and C. Fechner 96

Li, A.
Antagonist actions of bicuculline methiodide and picrotoxin on extrasynaptic γ-aminobutyric acid receptors
A.W. Barolet, A. Li, S. Liske, and M.E. Morris 1465

Liske, S.
Antagonist actions of bicuculline methiodide and picrotoxin on extrasynaptic γ-aminobutyric acid receptors
A.W. Barolet, A. Li, S. Liske, and M.E. Morris 1465

Loomis, C.W.
A comparative study of the inhibition of hepatic aldehyde dehydrogenases in the rat by methyltetrazolethiol, calcium carbimide, and disulfiram
J.F. Brien, G.S. Tam, R.J. Cameron, N.A.E. Steenaart, and C.W. Loomis 438

Analgesia and autonomic function following intrathecal administration of morphine and norepinephrine to the rat
C.W. Loomis, F.W. Cervenko, K. Jhamandas, M. Sutak, and B. Milne 656

Lortie, G.
Skeletal muscle histochemical and biochemical characteristics in sedentary male and female subjects
J.A. Simoneau, G. Lortie, M.R. Boulay, M.-C. Thibault, G. Thériault, and C. Bouchard 30

Lowry, A.
Regional and subcellular distribution of enzymes of branched-chain amino acid metabolism in brains of normal and diabetic rats
Margaret E. Brosnan, Ann Lowry, Yasmin Wasi, Martin Lowry, and John T. Brosnan 1234

Lowry, M.
Regional and subcellular distribution of enzymes of branched-chain amino acid metabolism in brains of normal and diabetic rats
Margaret E. Brosnan, Ann Lowry, Yasmin Wasi, Martin Lowry, and John T. Brosnan 1234

Lucas, A.
Gastrointestinal peptides and the adaptation to extrauterine nutrition
Alan Lucas, Stephen R. Bloom, and Albert Aynsley Green 527

Lukowiak, K.
The effects of small cardioactive peptide B on the isolated heart and gill of *Aplysia californica*
D.R.L. Cawthorpe, J. Rosenberg, W.F. Colmers, K. Lukowiak, and G.I. Drummond 918

Lundy, P.M.
Ketamine: evidence of tissue specific inhibition of neuronal and extraneuronal catecholamine uptake processes
PAUL M. LUNDY, SHARUNAS GVERZDYS, and ROBERT FREW 298

Lye, S.J.
Changes in pituitary responses to synthetic ovine corticotrophin releasing factor in fetal sheep
LAURIE J. NORMAN, STEPHEN J. LYE, MARY E. WLODEK, and J.R.G. CHALLIS 1398

MacDonald, J.F.
Measurements of transmitter action: the problem of voltage dependence
J.F. MACDONALD 825

MacLeod, K.M.
The influence of chronic experimental diabetes on contractile responses of rat isolated blood vessels
K.M. MACLEOD and J.H. MCNEILL 52

Mackie, G.
Central vasopressin in the modulation of catecholamine release in conscious rats
KATHRYN A. KING, GORDON MACKIE, CATHERINE C.Y. PANG, and RICHARD A. WALL 1501

Magyar, K.
Transient inhibition of the muscarinic actions of carbachol during reactivation of the electrogenic sodium pump in guinea pig taenia caeci smooth muscle
TAMÁS L. TÖRÖK, SYLVESTER E. VIZI, and KÁLMÁN MAGYAR 663

Mainwood, G.W.
The effect of acid–base balance on fatigue of skeletal muscle
G.W. MAINWOOD and J.M. RENAUD 403

The effects of pH on the kinetics of fatigue and recovery in frog sartorius muscle
J.M. RENAUD and G.W. MAINWOOD 1435

The interactive effects of fatigue and pH on the ionic conductance of frog sartorius muscle fibers
J.M. RENAUD and G.W. MAINWOOD 1444

Man, R.Y.K.
The effect of lidocaine on lysophosphatidylcholine-induced cardiac arrhythmias and cellular disturbances
KARIN J. NEUFELD, CINDY L. LEDERMAN, PATRICK C. CHOY, and RICKY Y.K. MAN 804

Manku, M.S.
The effects of hydrogenated coconut oil, safflower oil, and evening primrose oil on development of hypertension and sodium handling in spontaneously hypertensive rats
MASAYOSHI SOMA, MEHAR S. MANKU, and DAVID F. HORROBIN 325

Manns, J.G.
Introduction to Recent advances in the understanding of luteal function
J.G. MANNS and B.D. MURPHY 237

Marcotte, J.R.
Arginine esterase from isolated dog prostate secretory granules is fully active enzymatically
GILLES FRENETTE, JEAN Y. DUBÉ, JEAN R. MARCOTTE, and ROLAND R. TREMBLAY 1603

Martin, A.F.
Cardiac myofibrillar creatine kinase is not influenced by hypothyroidism
RUSSELL T. DOWELL and ANNE F. MARTIN 627

Mason, G.
Modulation of rat hepatic microsomal testosterone hydroxylases by 2,3,7,8-tetrachlorodibenzo-*p*-dioxin and related toxic isostereomers
BARBARA KEYS, MICHELLE HLAVINKA, GRANT MASON, and STEPHEN SAFE 1537

Mathers, D.A.
Spontaneous and GABA-induced single channel currents in cultured murine spinal cord neurons
DAVID A. MATHERS 1228

Matsukura, S.
Comparison of somatostatin-28 and somatostatin-14 clearance by the perfused rat liver
M. SENO, Y. SEINO, Y. TAKEMURA, S. NISHI, H. ISHIDA, N. KITANO, H. IMURA, T. TAMINATO, and S. MATSUKURA 62

Matte, J.J.
Studies of the role of gamma-aminobutyric acid in the hypothalamic control of feed intake in sheep
C.L. GIRARD, J.R. SEOANE, and J.J. MATTE 1297

Maturo, J.M., III
Distinct hydrodynamic forms of the insulin receptor: electrophoretic analysis of the R_I and R_{II} species
J.M. MATURO III and M.D. HOLLENBERG 987

Maybank, P.
Effect of endurance swimming on rat cardiac myofibrillar ATPase with experimental diabetes
A.N. BELCASTRO, P. MAYBANK, M. ROSSITER, and D. SECORD 1202

McCumbee, W.D.
Partial purification of a hypertensive substance from rat erythrocytes
WILLIAM D. MCCUMBEE and GARY L. WRIGHT 1321

McGinn, P.
Perturbational actions of barbiturate analogues on erythrocyte and synaptosomal membranes
DAVID V. GODIN and PETER MCGINN 937

McIntosh, C.H.S.
Autoradiographic localization of binding sites for atrial natriuretic factor
H.P. VON SCHROEDER, E. NISHIMURA, C.H.S. MCINTOSH, A.M.J. BUCHAN, N. WILSON, and J.R. LEDSOME 1373

McIntyre, Y.
Jejunal uptake of sugars, cholesterol, fatty acids, and fatty alcohols *in vivo* in diabetic rats
C. HOTKE, Y. MCINTYRE, and A.B.R. THOMSON 1356

McKay, G.
Methoxyphenamine metabolism in rat models of human debrisoquine phenotypes
S.D. ROY, E.M. HAWES, G. MCKAY, J.W. HUBBARD, and KAMAL K. MIDHA 778

McKee, N.H.
Assessing the pressure at zero flow in canine epigastric skin flaps
HOWARD M. CLARKE and NANCY H. MCKEE 230

McLennan, P.L.
Influence of dietary lipids on arrhythmias and infarction after coronary artery ligation in rats
P.L. MCLENNAN, M.Y. ABEYWARDENA, and J.S. CHARNOCK 1411

McNeill, J.H.
The 1983 Upjohn Award Lecture. Endocrine dysfunction and cardiac performance
JOHN H. MCNEILL 1

The influence of chronic experimental diabetes on contractile responses of rat isolated blood vessels
K.M. MACLEOD and J.H. MCNEILL 52

Effect of disulfonic stilbene anion-channel blockers on the guinea-pig myocardium
ARDA-E-VIRAF M. MINOCHERHOMJEE, BASIL D. ROUFOGALIS, and JOHN H. MCNEILL 912

Prevention of diabetes-induced myocardial dysfunction in rats by methyl palmoxirate and triiodothyronine treatment
ARUN G. TAHILIANI and JOHN H. MCNEILL 925

Effect of lanthanum on the inotropic response of isoproterenol: role of the superficially bound calcium
AHMAD B. FAWZI and JOHN H. MCNEILL 1106

Effects of chronic streptozotocin-induced diabetes on the cardiac responses to milrinone
RAMESH K. GOYAL and JOHN H. MCNEILL 1620

Ménard, D.
Development of enteropeptidase activity in mouse small intestine: influence of hormones
PIERRE ARSENAULT and DANIEL MÉNARD 472

Menon, K.M.J.
The role of plasma lipoproteins in steroidogenic response of rat luteal cells during gonadotropin-induced refractory states
K.G. RAJENDRAN, M. MENON, H. PEEGEL, J. HWANG, and K.M.J. MENON 265

Menon, M.
The role of plasma lipoproteins in steroidogenic response of rat luteal cells during gonadotropin-induced refractory states
K.G. RAJENDRAN, M. MENON, H. PEEGEL, J. HWANG, and K.M.J. MENON 265

Mernissi, G.E.
Renal sodium transport in vitamin D resistant hypophosphatemic rickets
MICHÈLE G. BRUNETTE, GHAZI EL MERNISSI, and ALAIN DOUCET 1339

Merrill, J.C.
The in vitro metabolism of benzo[*a*]pyrene by polychlorinated and polybrominated biphenyl induced rat hepatic microsomal monooxygenases
J.M. HAAKE, J.C. MERRILL, and S. SAFE 1096

Michalchuk, A.
Temperature and histamine receptor function — what is really happening?
D.A. COOK, C.A. KRUEGER, and A. MICHALCHUK 751

Midha, K.K.
Methoxyphenamine metabolism in rat models of human debrisoquine phenotypes
S.D. ROY, E.M. HAWES, G. MCKAY, J.W. HUBBARD, and KAMAL K. MIDHA 778

Miller, J.J.
Levels of hippocampal calcium and zinc following kindling-induced epilepsy
I. MODY and J.J. MILLER 159

Inhibitory processes of hippocampal CA1 pyramidal neurons following kindling-induced epilepsy in the rat
M.W. OLIVER and J.J. MILLER 872

Milne, B.
Analgesia and autonomic function following intrathecal administration of morphine and norepinephrine to the rat
C.W. LOOMIS, F.W. CERVENKO, K. JHAMANDAS, M. SUTAK, and B. MILNE 656

Minegishi, T.
Effects of prostaglandins and luteinizing hormone-releasing hormone on phosphatidic acid – phosphatidylinositol labeling in rat granulosa cells
TAKASHI MINEGISHI and PETER C.K. LEUNG 320

Minocherhomjee, A.-E.-V.M.
Effect of disulfonic stilbene anion-channel blockers on the guinea-pig myocardium
ARDA-E-VIRAF M. MINOCHERHOMJEE, BASIL D. ROUFOGALIS, and JOHN H. MCNEILL 912

Mitchelson, F.
Failure of gallamine and pancuronium to inhibit selectively by (−)-[^{3}H]-quinuclidinyl benzilate binding in guinea-pig atria
L.K. CHOO, E. LEUNG, and F. MITCHELSON 200

Mody, I.
Levels of hippocampal calcium and zinc following kindling-induced epilepsy
I. MODY and J.J. MILLER 159

Mogenson, G.J.
Effect of paraventricular nucleus lesions on cardiovascular responses elicited by stimulation of the subfornical organ in the rat
MICHAEL B. GUTMAN, JOHN CIRIELLO, and GORDON J. MOGENSON 816

Moore, G.J.
Structure–desensitization relationships of angiotensin analogues in the rat isolated uterus
GRAHAM J. MOORE, KEVIN J. FRANKLIN, DIANA M. NYSTROM, and MAHESH H. GOGHARI 966

Morgunov, N.
Vagal afferent activity and renal nerve release of dopamine
N. MORGUNOV and A.D. BAINES 636

Morishita, L.
The influence of D_2O, perchlorate, and variation in temperature on the potential-dependent contractile function of frog skeletal muscle
JAMES G. FOULKS and LILLIAN MORISHITA 693

The influence of temperature and frequency of stimulation on the impairment of excitability of frog skeletal muscle by local anesthetics and alkyl amphipathic agents
JAMES G. FOULKS and LILLIAN MORISHITA 1327

Retarded recovery of excitability and twitches of frog toe muscles after K-induced depolarization (slow inactivation) in the presence of alkyl amphipaths
JAMES G. FOULKS and LILLIAN MORISHITA 1335

Morlans, J.A.
Effects of manganese chloride on the outward currents in frog atrial trabeculae
JULIO L. ALVAREZ, MIGUEL GARCÍA, FRANCISCO R. DORTICÓS, and JÉSUS A. MORLANS 1065

Morr, M.
Effects of amino and ammonio derivatives of adenosine on smooth muscle preparations and mouse neuroblastoma adenylate cyclase
H.P. BAER and M. MORR 58

Morris, M.E.
Antagonist actions of bicuculline methiodide and picrotoxin on extrasynaptic γ-aminobutyric acid receptors
A.W. BAROLET, A. LI, S. LISKE, and M.E. MORRIS 1465

Morson, L.
Role of diet fat in subcellular structure and function
M.T. CLANDININ, C.J. FIELD, K. HARGREAVES, L. MORSON, and E. ZSIGMOND 546

Muramatsu, I.
Vascular actions of epidermal growth factor–urogastrone: possible relationship to prostaglandin production
I. MURAMATSU, M.D. HOLLENBERG, and K. LEDERIS 994

Murji, A.
Interaction of 2′,3′-di-*O*-nitro-5′-(*N*-ethylcarboxamido)adenosine with adenosine receptors in intestinal smooth muscle
H.P. BAER, R. VRIEND, and A. MURJI 449

Murphy, B.D.
Introduction to Recent advances in the understanding of luteal function
J.G. MANNS and B.D. MURPHY 237

Prolactin as a luteotrophin
BRUCE D. MURPHY and KADABA RAJKUMAR 257

Murphy, D.A.
Preliminary observations on the effects of stimulation of cardiac nerves in man
D.A. MURPHY, D.E. JOHNSTONE, and J.A. ARMOUR 649

Nadeau, A.
Contribution of postexercise increment in glucose storage to variations in glucose-induced thermogenesis in endurance athletes
ANGELO TREMBLAY, ELIZABETH FONTAINE, and ANDRÉ NADEAU 1165

Hyperglycemic effect of high doses of dobutamine in the rat: studies of insulin and glucagon secretion
SUZANNE ROUSSEAU-MIGNERON, SOPHIE NADEAU, and ANDRÉ NADEAU 1308

Nadeau, B.E.
Evidence for a contribution by brown adipose tissue to the development of fever in the young rabbit
W.H. Harris, D.O. Foster, and B.E. Nadeau **595**

The relationship between the thermogenic response of brown adipose tissue and age during noradrenaline infusion in the young rabbit
W.H. Harris, D.O. Foster, and B.E. Nadeau **1215**

Nadeau, R.
Vagal effects on sinoatrial and atrial conduction studied with epicardial mapping in dogs: the influence of pacemaker shifts on the measurement of sinoatrial conduction time
Hidehiko Watanabe, Jean-Benoît Perry, Pierre Pagé, Pierre Savard, and Réginald Nadeau **113**

Catecholamine release and ventricular arrhythmias during coronary occlusion and reperfusion in the dog
Diane Godin, Nicole Campeau, Réginald Nadeau, René Cardinal, and Jacques de Champlain **1088**

Nadeau, S.
Hyperglycemic effect of high doses of dobutamine in the rat: studies of insulin and glucagon secretion
Suzanne Rousseau-Migneron, Sophie Nadeau, and André Nadeau **1308**

Najafi-Farashah, A.
The distension stimulus to gastric acid secretion in the isolated mouse stomach
J.S. Davison and A. Najafi-Farashah **1533**

Nakatsu, K.
Limitation of theophylline elimination by reduced oxygen availability in mouse hepatocytes and rat isolated livers
Kanji Nakatsu **903**

Nambi, P.
Sensitization of frog erythrocyte adenylate cyclase system by tumor-promoting phorbol diesters
Ponnal Nambi, David R. Sibley, and Robert J. Lefkowitz **983**

Nandi, D.L.
Association of the positive inotropic action of ouabain with a second species of digitalis receptors
Itsuo Kurobane, Dhirendra L. Nandi, and George T. Okita **476**

Narang, N.
Stimulation of an *N*-ethylmaleimide-sensitive ATPase in the collecting duct segments of the rat nephron by metabolic acidosis
Lal C. Garg and Neelam Narang **1291**

Nathanielsz, P.W.
Induction of premature delivery in sheep following infusion of cortisol to the fetus. I. The effect of maternal administration of progestagens
G. Jenkin, G. Jorgensen, G.D. Thorburn, J.E. Buster, and P.W. Nathanielsz **500**

Navert, H.
Quantitative determination of histamine metabolites by capillary gas chromatography
H. Navert, R. Bérubé, and A. Wollin **766**

Neufeld, K.J.
The effect of lidocaine on lysophosphatidylcholine-induced cardiac arrhythmias and cellular disturbances
Karin J. Neufeld, Cindy L. Lederman, Patrick C. Choy, and Ricky Y.K. Man **804**

Neuman, R.S.
Action of serotonin and norepinephrine on spinal motoneurones following blockade of synaptic transmission
R.S. Neuman **735**

Niederst, C.
Activités des hydrolases rénales au cours du développement pré et post-natal de la souris
C. Niederst et M. Dauça **731**

Nishi, S.
Comparison of somatostatin-28 and somatostatin-14 clearance by the perfused rat liver
M. Seno, Y. Seino, Y. Takemura, S. Nishi, H. Ishida, N. Kitano, H. Imura, T. Taminato, and S. Matsukura **62**

Nishimura, E.
Autoradiographic localization of binding sites for atrial natriuretic factor
H.P. von Schroeder, E. Nishimura, C.H.S. McIntosh, A.M.J. Buchan, N. Wilson, and J.R. Ledsome **1373**

Niswender, G.D.
The regulation of steroidogenesis is different in the two types of ovine luteal cells
P.B. Hoyer and G.D. Niswender **240**

Norman, L.J.
Changes in pituitary responses to synthetic ovine corticotrophin releasing factor in fetal sheep
Laurie J. Norman, Stephen J. Lye, Mary E. Wlodek, and J.R.G. Challis **1398**

Northup, J.K.
Action of insulin modulated by pertussis toxin in rat adipocytes
H. Joseph Goren, John K. Northup, and Morley D. Hollenberg **1017**

Nystrom, D.M.
Structure–desensitization relationships of angiotensin analogues in the rat isolated uterus
Graham J. Moore, Kevin J. Franklin, Diana M. Nystrom, and Mahesh H. Goghari **966**

O'Beirne, M.
Enhanced neuronal K^+ conductance: a possible common mechanism for sedative-hypnotic drug action
P.L. Carlen, N. Gurevich, M.F. Davies, T.J. Blaxter, and M. O'Beirne **831**

Oba, T.
Hg^{2+}-induced contracture in mechanically skinned fibers of frog skeletal muscle
Takako Aoki, Toshiharu Oba, and Ken Hotta **1070**

Ochoa, E.J.
Evidence for a secretory component in the handling of unconjugated bilirubin by the isolated perfused rat kidney
María M. Elías, Elbio J. Comin, Elena J. Ochoa, and Emilio A. Rodríguez Garay **1581**

Ogbaghebriel, A.
Electrophysiological effects of ethmozine in perfused rabbit hearts
Peter E. Dresel, A. Ogbaghebriel, and R. Abraham **1418**

Ogilvie, R.I.
Comparative effects of vasodilator drugs on flow distribution and venous return
R.I. Ogilvie **1345**

Oke, O.L.
On the metabolism of amygdalin. 1. The LD_{50} and biochemical changes in rats
S.R.A. Adewusi and O.L. Oke **1080**

On the metabolism of amygdalin. 2. The distribution of β-glucosidase activity and orally administered amygdalin in rats
S.R.A. Adewusi and O.L. Oke **1084**

Okita, G.T.
Association of the positive inotropic action of ouabain with a second species of digitalis receptors
Itsuo Kurobane, Dhirendra L. Nandi, and George T. Okita **476**

Oliver, M.W.
Inhibitory processes of hippocampal CA1 pyramidal neurons following kindling-induced epilepsy in the rat
M.W. Oliver and J.J. Miller **872**

Olley, P.M.
Evidence for a role of prostaglandin I_2 and thromboxane A_2 in the ductus venosus of the lamb
A.S.O. Adeagbo, I. Bishai, J. Lees, P.M. Olley, and F. Coceani **1101**

Ong, H.
Influence of hypoxemia and respiratory acidosis on the plasma kinetics and tissue distribution of digoxin in the conscious dog
PATRICK DU SOUICH, JEAN-PAUL CLOZEL, CLAUDE SAUNIER, HUY ONG, DENISE HARTEMANN, TERESA GARCIA-CARMONA, and PAUL SADOUL 72

Osberg, C.
Compliance characteristics of the hind-limb arterial system of normal and hypertensive rabbits
B. LOWELL LANGILLE and CATHERINE OSBERG 1057

Oster, J.R.
Pathogenesis of hyperphosphatemia in lactic acidosis: disparate effects of racemic (DL-) and levo (L-) lactic acid on plasma phosphorus concentration
JAMES R. OSTER, HELEN C. ALPERT, and CARLOS A. VAAMONDE 1599

Packer, C.S.
Mechanics of caudal artery relaxation in control and hypertensive rats
C.S. PACKER and N.L. STEPHENS 209

Force–velocity relationships in hypertensive arterial smooth muscle
C.S. PACKER and N.L. STEPHENS 669

Tension–velocity relationships in hypertensive mesenteric resistance arteries
C.S. PACKER and N.L. STEPHENS 675

Pagé, P.
Vagal effects on sinoatrial and atrial conduction studied with epicardial mapping in dogs: the influence of pacemaker shifts on the measurement of sinoatrial conduction time
HIDEHIKO WATANABE, JEAN-BENOÎT PERRY, PIERRE PAGÉ, PIERRE SAVARD, and RÉGINALD NADEAU 113

Pakuts, A.
Postabsorption antidotal effects of *N*-acetylcysteine on acetaminophen-induced hepatotoxicity in the mouse
L.W. WHITEHOUSE, L.T. WONG, C.J. PAUL, A. PAKUTS, and G. SOLOMONRAJ 431

Palatý, V.
Inhibition of monoamine oxidase by amiloride
VLADIMÍR PALATÝ 1586

Pang, C.C.Y.
Chronic treatment of rats with D-600 causes a compensatory decrease in the calcium requirement for contractility of vascular smooth and cardiac muscles
CATHERINE C.Y. PANG and MORLEY C. SUTTER 495

Central vasopressin in the modulation of catecholamine release in conscious rats
KATHRYN A. KING, GORDON MACKIE, CATHERINE C.Y. PANG, and RICHARD A. WALL 1501

Pang, S.C.
Primary versus secondary events in hypertension
PAVEL HAMET, JOHANNE TREMBLAY, STEPHEN C. PANG, SUSAN V. WALTER, and YUEN-I WEN 380

Pappas, B.A.
Relationship between levels and uptake of serotonin and high affinity [^{3}H]imipramine recognition sites in the rat brain
PAVEL D. HRDINA, BRUCE A. PAPPAS, DAVID C.S. ROBERTS, ROBERT J. BIALIK, and CATHRINE L. RYAN 1239

Patel, V.
Inactivation of the β-adrenergic receptor in cardiac muscle by dithiols
TREVOR I. PRIOR, VANDANA PATEL, and G.I. DRUMMOND 932

Paul, C.J.
Postabsorption antidotal effects of *N*-acetylcysteine on acetaminophen-induced hepatotoxicity in the mouse
L.W. WHITEHOUSE, L.T. WONG, C.J. PAUL, A. PAKUTS, and G. SOLOMONRAJ 431

Peegel, H.
The role of plasma lipoproteins in steroidogenic response of rat luteal cells during gonadotropin-induced refractory states
K.G. RAJENDRAN, M. MENON, H. PEEGEL, J. HWANG, and K.M.J. MENON 265

Penney, D.G.
Effects of thyroid and growth hormone deficiency, and food restriction on heart mass, with and without added stress (carboxyhemoglobinemia)
DAVID G. PENNEY and BERND G. BARTHEL 642

Perez, R.
The metabolic response of the kidney to acute sodium lactate alkalosis
GUY LEMIEUX, EDUARDO JUNCO, RAPHAEL PEREZ, CHRISTIANE LEMIEUX, and ELIZABETH ALLIGNET 687

Perl, A.
Thoracoabdominal motion during hypercapnia, hypoxia, and exercise
K.R. CHAPMAN, A. PERL, N. ZAMEL, and A.S. REBUCK 188

Perry, J.-B.
Vagal effects on sinoatrial and atrial conduction studied with epicardial mapping in dogs: the influence of pacemaker shifts on the measurement of sinoatrial conduction time
HIDEHIKO WATANABE, JEAN-BENOÎT PERRY, PIERRE PAGÉ, PIERRE SAVARD, and RÉGINALD NADEAU 113

Peters, S.J.
Rat skeletal muscle triacylglycerol utilization during exhaustive swimming
LAWRENCE L. SPRIET, SANDRA J. PETERS, GEORGE J.F. HEIGENHAUSER, and NORMAN L. JONES 614

Poitras, P.
Variations in plasma motilin, somatostatin, and pancreatic polypeptide concentrations and the interdigestive myoelectric complex in dog
P. POITRAS, M. LEMOYNE, D. TASSE, L. TRUDEL, T. YAMADA, and I.L. TAYLOR 1495

Pomerantz, D.K.
The effect of prenatal treatment with busulfan on *in vitro* androgen production by testes from rats of various ages
GWENDERLYN F. JANSZ and DAVID K. POMERANTZ 1155

Pomeranz, I.S.
Direct determination of the contractility of the guinea pig gallbladder: a new *in vivo* model
I.S. POMERANZ, J.S. DAVISON, and E.A. SHAFFER 1038

Prete, P.E.
Effects of L-canavanine on immune function in normal and autoimmune mice: disordered B-cell function by a dietary amino acid in the immunoregulation of autoimmune disease
PAMELA E. PRETE 843

Prior, T.I.
Inactivation of the β-adrenergic receptor in cardiac muscle by dithiols
TREVOR I. PRIOR, VANDANA PATEL, and G.I. DRUMMOND 932

Przyklenk, K.
Effects of exercise frequency, intensity, and duration on revascularization in the transition zone of infarcted rat hearts
K. PRZYKLENK and A.C. GROOM 273

Rabin, E.Z.
The renal handling of human urinary ribonuclease by rat kidneys
G. FARBOODY, B. TATTRIE, P.U. RIPPSTEIN, and E.Z. RABIN 619

Radde, I.C.
Transplacental ^{45}Ca and ^{32}P flux in the guinea pig: effect of maternal hypercalcaemia and hypocalcaemia
L.O. DEREWLANY and I.C. RADDE 1577

Rajendran, K.G.
The role of plasma lipoproteins in steroidogenic response of rat luteal cells during gonadotropin-induced refractory states
K.G. RAJENDRAN, M. MENON, H. PEEGEL, J. HWANG, and K.M.J. MENON 265

Rajkumar, K.
Prolactin as a luteotrophin
BRUCE D. MURPHY and KADABA RAJKUMAR 257

Randall, W.C.
Rebound cardiovascular responses following stimulation of canine vagosympathetic complexes or cardiopulmonary nerves
J.A. Armour and W.C. Randall **1122**

Rangachari, P.K.
Estimates of Na^+-K^+ pumping in intact canine iliac arteries
P.K. Rangachari **101**

Rangaraj, N.
α_1-Adrenergic receptor involvement in norepinephrine–ethanol inhibition of rat brain Na^+-K^+ ATPase and in ethanol tolerance
N. Rangaraj, H. Kalant, and F. Beaugé **1075**

Rankin, A.J.
Release of atrial natriuretic peptide by atrial distension
J.R. Ledsome, N. Wilson, C.A. Courneya, and A.J. Rankin **739**

Rao, L.
Sugar uptake into a primary culture of dog kidney proximal tubular cells
C. Yau, L. Rao, and M. Silverman **417**

Rebuck, A.S.
Thoracoabdominal motion during hypercapnia, hypoxia, and exercise
K.R. Chapman, A. Perl, N. Zamel, and A.S. Rebuck **188**

Rehfeld, J.F.
Potentiation of β-endorphin effects by cholecystokinin antiserum in rats
Shinji Itoh, Goro Katsuura, Kenji Yoshikawa, and Jens F. Rehfeld **81**

Renaud, J.M.
The effect of acid–base balance on fatigue of skeletal muscle
G.W. Mainwood and J.M. Renaud **403**

The effects of pH on the kinetics of fatigue and recovery in frog sartorius muscle
J.M. Renaud and G.W. Mainwood **1435**

The interactive effects of fatigue and pH on the ionic conductance of frog sartorius muscle fibers
J.M. Renaud and G.W. Mainwood **1444**

Rérat, A.
Metabolic and hormonal effects of test meals with various protein contents in pigs
A. Rérat, J.A. Chayvialle, J. Kandé, P. Vaissade, P. Vaugelade, and T. Bourrier **1547**

Reynolds, R.P.E.
Oesophageal peristalsis in the cat: the role of central innervation assessed by transient vagal blockade
R.P.E. Reynolds, T.Y. El-Sharkawy, and N.E. Diamant **122**

Rice, G.E.
Subcellular localization of oxytocin in the ovine corpus luteum
G.E. Rice and G.D. Thorburn **309**

Rippstein, P.U.
The renal handling of human urinary ribonuclease by rat kidneys
G. Farboody, B. Tattrie, P.U. Rippstein, and E.Z. Rabin **619**

Roach, M.R.
Organization of medial elastin at aortic junctions in sheep and lambs
Charles van Baardwijk, Sharon E. Barwick, and Margot R. Roach **855**

The elastic properties of canine abdominal aorta at its branches
Deborah M. Touw, M.H. Sherebrin, and Margot R. Roach **1378**

Roberts, D.C.S.
Relationship between levels and uptake of serotonin and high affinity [^{3}H]imipramine recognition sites in the rat brain
Pavel D. Hrdina, Bruce A. Pappas, David C.S. Roberts, Robert J. Bialik, and Cathrine L. Ryan **1239**

Robertshaw, D.
Pulmonary vascular responsiveness in cold-exposed calves
K.J. Greenlees, A. Tucker, D. Robertshaw, and C.R. Vader **131**

Robertson, H.A.
Noradrenergic alpha$_2$ binding sites in vagal dorsal motor nucleus and nucleus tractus solitarius: autoradiographic localization
H.A. Robertson and R.A. Leslie **1190**

Robinson, C.P.
Action of agonists and antagonists on adrenergic receptors in isolated porcine coronary arteries
Mark A. Horst and Casey P. Robinson **867**

Romine, M.T.
Evidence for oxytocin receptors in the urinary bladder of the rabbit
Mary T. Romine and Gordon F. Anderson **287**

Ropert, N.
Modulation of inhibition in the hippocampus in vivo
Nicole Ropert **838**

Rosenberg, J.
The effects of small cardioactive peptide B on the isolated heart and gill of *Aplysia californica*
D.R.L. Cawthorpe, J. Rosenberg, W.F. Colmers, K. Lukowiak, and G.I. Drummond **918**

Rosenberg, P.
Effect of alkylation of tryptophan residues on the enzymatic and pharmacological properties of snake venom phospholipase A_2
Eleonora Condrea, Karen R. Soons, Peggy L. Barrington, Chen-Chung Yang, and Philip Rosenberg **331**

Rossi, A.
Adenine nucleotide synthesis from inosine during normoxia and after ischaemia in the isolated perfused rat heart
J. Aussedat, M. Verdys, and A. Rossi **1159**

Rossiter, M.
Effect of endurance swimming on rat cardiac myofibrillar ATPase with experimental diabetes
A.N. Belcastro, P. Maybank, M. Rossiter, and D. Secord **1202**

Roufogalis, B.D.
Effect of disulfonic stilbene anion-channel blockers on the guinea-pig myocardium
Arda-E-Viraf M. Minocherhomjee, Basil D. Roufogalis, and John H. McNeill **912**

Rouleau, J.R.
Effects of coronary sinus pressure elevation on coronary blood flow distribution in dogs with normal preload
Jacques R. Rouleau and Michel White **787**

Rousseau-Migneron, S.
Hyperglycemic effect of high doses of dobutamine in the rat: studies of insulin and glucagon secretion
Suzanne Rousseau-Migneron, Sophie Nadeau, and André Nadeau **1308**

Roy, D.R.
Effect of calcitonin on fractional delivery of sodium and solutes to the juxtamedullary end-descending limb of the rat
Denis R. Roy **89**

Roy, S.D.
Methoxyphenamine metabolism in rat models of human debrisoquine phenotypes
S.D. Roy, E.M. Hawes, G. McKay, J.W. Hubbard, and Kamal K. Midha **778**

Ruiz, R.D.
Modifications evoked by piretanide in the mechanical activity of cardiovascular tissues
J.L. Lacuara, R.D. Ruiz, and M. Fiol de Cuneo **283**

Ruzycky, A.
Ca^{2+} channel antagonist actions in bladder smooth muscle: comparative pharmacologic and [^{3}H]nitrendipine binding studies
F.B. Yousif, G.T. Bolger, A. Ruzycky, and D.J. Triggle **453**

Ryan, C.L.
Relationship between levels and uptake of serotonin and high affinity [^{3}H]imipramine recognition sites in the rat brain
PAVEL D. HRDINA, BRUCE A. PAPPAS, DAVID C.S. ROBERTS, ROBERT J. BIALIK, and CATHRINE L. RYAN **1239**

Sada, H.
The calcium channel agonist, Bay K-8644, antagonizes effects of diacetyl monoxime on cardiac tissues
HIDEAKI SADA, SHIGIKO SADA, and NICHOLAS SPERELAKIS **1267**

Sada, S.
The calcium channel agonist, Bay K-8644, antagonizes effects of diacetyl monoxime on cardiac tissues
HIDEAKI SADA, SHIGIKO SADA, and NICHOLAS SPERELAKIS **1267**

Sadoul, P.
Influence of hypoxemia and respiratory acidosis on the plasma kinetics and tissue distribution of digoxin in the conscious dog
PATRICK DU SOUICH, JEAN-PAUL CLOZEL, CLAUDE SAUNIER, HUY ONG, DENISE HARTEMANN, TERESA GARCIA-CARMONA, and PAUL SADOUL **72**

Safe, S.
Reconstituted halogenated hydrocarbon pesticide and pollutant mixtures found in human tissues: effects on the immature male Wistar rat after short-term exposure
J. GYORKOS, M.A. DENOMME, B. LEECE, K. HOMONKO, V.E. VALLI, and S. SAFE **36**

The in vitro metabolism of benzo[*a*]pyrene by polychlorinated and polybrominated biphenyl induced rat hepatic microsomal monooxygenases
J.M. HAAKE, J.C. MERRILL, and S. SAFE **1096**

Modulation of rat hepatic microsomal testosterone hydroxylases by 2,3,7,8-tetrachlorodibenzo-*p*-dioxin and related toxic isostereomers
BARBARA KEYS, MICHELLE HLAVINKA, GRANT MASON, and STEPHEN SAFE **1537**

Saunders, W.S.
The role of the pituitary–adrenal axis in the hyperthermia induced by acute peripheral or central (preoptic anterior hypothalamus) administration of morphine to unrestrained rats
J.A. THORNHILL and W.S. SAUNDERS **1590**

Saunier, C.
Influence of hypoxemia and respiratory acidosis on the plasma kinetics and tissue distribution of digoxin in the conscious dog
PATRICK DU SOUICH, JEAN-PAUL CLOZEL, CLAUDE SAUNIER, HUY ONG, DENISE HARTEMANN, TERESA GARCIA-CARMONA, and PAUL SADOUL **72**

In vitro effects of hypoxia and (or) hypercapnic acidosis on the myocardial uptake of digoxin
A. SAUTEGEAU, J.P. CLOZEL, C. SAUNIER, and D. HARTEMANN **344**

Sautegeau, A.
In vitro effects of hypoxia and (or) hypercapnic acidosis on the myocardial uptake of digoxin
A. SAUTEGEAU, J.P. CLOZEL, C. SAUNIER, and D. HARTEMANN **344**

Savard, P.
Vagal effects on sinoatrial and atrial conduction studied with epicardial mapping in dogs: the influence of pacemaker shifts on the measurement of sinoatrial conduction time
HIDEHIKO WATANABE, JEAN-BENOÎT PERRY, PIERRE PAGÉ, PIERRE SAVARD, and RÉGINALD NADEAU **113**

Sawh, P.C.
Chlormadinone acetate, a progesterone derivative that binds to the digitalis receptor, inhibits the sodium pump in the isolated rat diaphragm
IVAN BIHLER, FRANK S. LABELLA, and P.C. SAWH **44**

Schaffer, S.W.
Effect of calcium depletion and calcium paradox on myocardial energy metabolism
STEPHEN W. SCHAFFER and BOEN H. TAN **1384**

Schiffrin, E.L.
Effect of aldosterone on vascular angiotensin II receptors in the rat
ERNESTO L. SCHIFFRIN, DOUGLAS J. FRANKS, and JOLANTA GUTKOWSKA **1522**

Scott, T.M.
The relationship between altered blood vessel structure, hypertension, and the sympathetic nervous system
T.M. SCOTT and G. GALWAY **387**

Secord, D.
Effect of endurance swimming on rat cardiac myofibrillar ATPase with experimental diabetes
A.N. BELCASTRO, P. MAYBANK, M. ROSSITER, and D. SECORD **1202**

Seino, Y.
Comparison of somatostatin-28 and somatostatin-14 clearance by the perfused rat liver
M. SENO, Y. SEINO, Y. TAKEMURA, S. NISHI, H. ISHIDA, N. KITANO, H. IMURA, T. TAMINATO, and S. MATSUKURA **62**

Senaratne, M.P.J.
Cholesterol feeding impairs endothelium-dependent relaxation of rabbit aorta
R.L. JAYAKODY, M.P.J. SENARATNE, A.B.R. THOMSON, and C.T. KAPPAGODA **1206**

Seno, M.
Comparison of somatostatin-28 and somatostatin-14 clearance by the perfused rat liver
M. SENO, Y. SEINO, Y. TAKEMURA, S. NISHI, H. ISHIDA, N. KITANO, H. IMURA, T. TAMINATO, and S. MATSUKURA **62**

Seoane, J.R.
Studies of the role of gamma-aminobutyric acid in the hypothalamic control of feed intake in sheep
C.L. GIRARD, J.R. SEOANE, and J.J. MATTE **1297**

Seufert, W.D.
A method to express complex curves concisely and with high fidelity
FRANCE BESSETTE and WOLF D. SEUFERT **1033**

Severson, D.L.
A tribute to George I. Drummond, Ph.D.
D.L. SEVERSON **901**

Regulation of lysophosphatidylcholine-metabolizing enzymes in isolated myocardial cells from rat heart
DAVID L. SEVERSON and THEA FLETCHER **944**

Shaffer, E.A.
Direct determination of the contractility of the guinea pig gallbladder: a new *in vivo* model
I.S. POMERANZ, J.S. DAVISON, and E.A. SHAFFER **1038**

Shaffer, J.E.
Role of alpha-adrenergic receptors in the intrinsic inotropic selectivity of dobutamine in anesthetized dogs
JOEL E. SHAFFER and RICHARD J. GORCZYNSKI **630**

Shear, N.H.
In vitro evaluation of a toxic metabolite of sulfadiazine
N.H. SHEAR and S.P. SPIELBERG **1370**

Sherebrin, M.H.
The elastic properties of canine abdominal aorta at its branches
DEBORAH M. TOUW, M.H. SHEREBRIN, and MARGOT R. ROACH **1378**

Shigenobu, K.
Acetylcholine supersensitivity in the rat heart produced by neonatal sympathectomy
KUNIO ISHII, NORIE ISHII, KOKI SHIGENOBU, and YUTAKA KASUYA **898**

Sibley, D.R.
Sensitization of frog erythrocyte adenylate cyclase system by tumor-promoting phorbol diesters
PONNAL NAMBI, DAVID R. SIBLEY, and ROBERT J. LEFKOWITZ **983**

Silverman, M.
Sugar uptake into a primary culture of dog kidney proximal tubular cells
C. Yau, L. Rao, and M. Silverman **417**

Simard-Duquesne, N.
Resistance of the diabetic rat nerve to ischemic inactivation
J. Jaramillo, N. Simard-Duquesne, and D. Dvornik **773**

Simoneau, J.A.
Skeletal muscle histochemical and biochemical characteristics in sedentary male and female subjects
J.A. Simoneau, G. Lortie, M.R. Boulay, M.-C. Thibault, G. Thériault, and C. Bouchard **30**

Sinclair, J.C.
Energy intake and the nature of growth in low birth weight infants
R.K. Whyte, H.S. Bayley, and J.C. Sinclair **565**

Sirek, A.
The effect of growth hormone on biogenic amines in the hepatic portal circulation of the dog
M.N. Hussain, A. Sirek, E. Cukerman, and O.V. Sirek **463**

The effect of tryptophan on biogenic amines in the hepatic portal circulation of the dog
M.N. Hussain, A. Sirek, E. Cukerman, and O.V. Sirek **863**

Sirek, O.V.
The effect of growth hormone on biogenic amines in the hepatic portal circulation of the dog
M.N. Hussain, A. Sirek, E. Cukerman, and O.V. Sirek **463**

The effect of tryptophan on biogenic amines in the hepatic portal circulation of the dog
M.N. Hussain, A. Sirek, E. Cukerman, and O.V. Sirek **863**

Smeda, J.S.
Primary versus secondary structural changes of the blood vessels in hypertension
Robert M.K.W. Lee and John S. Smeda **392**

Smith, P.A.
The significance of adrenaline-induced potentiation of electrogenic sodium pumping in bullfrog sympathetic ganglia
Peter A. Smith and Kochu-Rani Dombro **1182**

Smith, R.S.
The recovery of organelle transport and microtubule integrity in myelinated axons that are frozen and thawed
R.S. Smith and W.S. Kendal **292**

Rapid axonal transport in *Xenopus* nerve in divalent cation free media
R.E. Snyder and R.S. Smith **1279**

Snedden, W.
A novel therapeutic approach for reversal of left ventricular hypertrophy and blood pressure control in hypertensive patients treated with alpha-methyldopa or propranolol
P.G. Fernandez, W. Snedden, B.K. Kim, and C.C. Lee **304**

Snyder, R.E.
Rapid axonal transport in *Xenopus* nerve in divalent cation free media
R.E. Snyder and R.S. Smith **1279**

Solomonraj, G.
Postabsorption antidotal effects of *N*-acetylcysteine on acetaminophen-induced hepatotoxicity in the mouse
L.W. Whitehouse, L.T. Wong, C.J. Paul, A. Pakuts, and G. Solomonraj **431**

Soma, M.
The effects of hydrogenated coconut oil, safflower oil, and evening primrose oil on development of hypertension and sodium handling in spontaneously hypertensive rats
Masayoshi Soma, Mehar S. Manku, and David F. Horrobin **325**

Sonnenberg, H.
Inactivation of atrial natriuretic factor in blood
Anthony T. Veress, Chee K. Chong, and Harald Sonnenberg **1615**

Soons, K.R.
Effect of alkylation of tryptophan residues on the enzymatic and pharmacological properties of snake venom phospholipase A_2
Eleonora Condrea, Karen R. Soons, Peggy L. Barrington, Chen-Chung Yang, and Philip Rosenberg **331**

Soowamber, M.
Renal extraction of glutamine from plasma and whole blood: studies in dogs and rats
P. Vinay, N. Khoury, M. Soowamber, and A. Gougoux **886**

Sperelakis, N.
The calcium channel agonist, Bay K-8644, antagonizes effects of diacetyl monoxime on cardiac tissues
Hideaki Sada, Shigiko Sada, and Nicholas Sperelakis **1267**

Effects of 6-mercaptopurine treatment on the membrane potentials of rat skeletal muscle fibers
Phyllis Clouva-Molyvdas, Nicholas Sperelakis, Michael S. Forbes, Frederic R. Alleva, and Tibor Balazs **1271**

Spero, L.
In situ molecular weight determination of rat brain [^{3}H]phenytoin binding sites
Lawrence Spero **515**

Specific binding of [^{3}H]phenytoin in the human brain
L. Spero **517**

Spielberg, S.P.
Acetaminophen toxicity in lymphocytes heterozygous for glutathione synthetase deficiency
Stephen P. Spielberg **468**

In vitro evaluation of a toxic metabolite of sulfadiazine
N.H. Shear and S.P. Spielberg **1370**

Spriet, L.L.
Rat skeletal muscle triacylglycerol utilization during exhaustive swimming
Lawrence L. Spriet, Sandra J. Peters, George J.F. Heigenhauser, and Norman L. Jones **614**

Steenaart, N.A.E.
Differential pharmacokinetics for oral and intraperitoneal administration of ethanol to the pregnant guinea pig
D.W. Clarke, N.A.E. Steenaart, T.H. Breedon, and J.F. Brien **169**

A comparative study of the inhibition of hepatic aldehyde dehydrogenases in the rat by methyltetrazolethiol, calcium carbimide, and disulfiram
J.F. Brien, G.S. Tam, R.J. Cameron, N.A.E. Steenaart, and C.W. Loomis **438**

Steiner, G.
Very low density lipoprotein binding to cultured aortic endothelium
Kappu S. Desai, Avrum I. Gotlieb, and George Steiner **809**

Stephens, N.L.
Force–velocity constants in smooth muscle: afterloaded isotonic and quick-release methods
N.L. Stephens **48**

Mechanics of caudal artery relaxation in control and hypertensive rats
C.S. Packer and N.L. Stephens **209**

Force–velocity relationships in hypertensive arterial smooth muscle
C.S. Packer and N.L. Stephens **669**

Tension–velocity relationships in hypertensive mesenteric resistance arteries
C.S. Packer and N.L. Stephens **675**

Stewart, P.A.
Erratum: Modern quantitative acid–base chemistry
Peter A. Stewart **168**

Strnad, C.F.
Effect of the calcium ionophore A23187 on superoxide generation in phorbol ester stimulated human neutrophils
COLETTE F. STRNAD and KENNETH WONG **1543**

Suarez-Kurtz, G.
Excitation–contraction coupling in crab muscle fibers with swollen T tubules
J.H. LEAL-CARDOSO and G. SUAREZ-KURTZ **879**

Sulakhe, P.V.
Isolation and characterization of calcineurin from bovine brain
RAMESH C. GUPTA, RAMJI L. KHANDELWAL, and
PRAKASH V. SULAKHE **1000**

EGTA-sensitive and -insensitive forms of particulate adenylate cyclase in rat cerebral cortex: regulation by divalent cations and GTP
P.V. SULAKHE **1007**

Sunahara, G.I.
Characterization studies of a rat hepatic cytosolic androgen-binding protein
G.I. SUNAHARA, M.J.P. FINLAYSON, B.L. WARREN, and
G.D. BELLWARD **952**

Suria, D.
Valproic acid disposition in rabbits during chronic treatment with *Escherichia coli* endotoxin
J.J. THIESSEN, P.S. ALBRIGHT, J. BRUNI, and D. SURIA **315**

Sutak, M.
Analgesia and autonomic function following intrathecal administration of morphine and norepinephrine to the rat
C.W. LOOMIS, F.W. CERVENKO, K. JHAMANDAS, M. SUTAK, and
B. MILNE **656**

Sutter, M.C.
Ionic permeability and blood pressure
MORLEY C. SUTTER **375**

Chronic treatment of rats with D-600 causes a compensatory decrease in the calcium requirement for contractility of vascular smooth and cardiac muscles
CATHERINE C.Y. PANG and MORLEY C. SUTTER **495**

Szlyk, P.C.
Ventilation and respiratory pattern and timing in resting awake cats
D.B. JENNINGS and P.C. SZLYK **148**

Taeusch, H.W., Jr.
Physical, chemical, and physiological characteristics of isolates of pulmonary surfactant from adult rabbits
K.M.W. KEOUGH, E. FARRELL, M. COX, G. HARRELL, and
H.W. TAEUSCH, JR. **1043**

Tahiliani, A.G.
Prevention of diabetes-induced myocardial dysfunction in rats by methyl palmoxirate and triiodothyronine treatment
ARUN G. TAHILIANI and JOHN H. MCNEILL **925**

Tait, G.A.
The effect of afterload on the cardiodepressor reflex response to coronary artery occlusion in dogs
E.L. FALLEN, W.S. BEATTIE, and G.A. TAIT **1560**

Takayanagi, I.
Mechanism of action of nicotine on crab-eating monkey isolated bronchial smooth muscle
YASUO KIZAWA and ISSEI TAKAYANAGI **1471**

Takemura, Y.
Comparison of somatostatin-28 and somatostatin-14 clearance by the perfused rat liver
M. SENO, Y. SEINO, Y. TAKEMURA, S. NISHI, H. ISHIDA, N. KITANO,
H. IMURA, T. TAMINATO, and S. MATSUKURA **62**

Talesnik, J.
Modulation of positive inotropy and metabolic coronary dilatation by myocardial α-adrenoceptors
BRUCE J. YOUNGSON and JAIME TALESNIK **1513**

Tam, G.S.
A comparative study of the inhibition of hepatic aldehyde dehydrogenases in the rat by methyltetrazolethiol, calcium carbimide, and disulfiram
J.F. BRIEN, G.S. TAM, R.J. CAMERON, N.A.E. STEENAART, and
C.W. LOOMIS **438**

Taminato, T.
Comparison of somatostatin-28 and somatostatin-14 clearance by the perfused rat liver
M. SENO, Y. SEINO, Y. TAKEMURA, S. NISHI, H. ISHIDA, N. KITANO,
H. IMURA, T. TAMINATO, and S. MATSUKURA **62**

Tan, B.H.
Effect of calcium depletion and calcium paradox on myocardial energy metabolism
STEPHEN W. SCHAFFER and BOEN H. TAN **1384**

Tan, M.H.
The in vitro effect of corticosterone on insulin binding and glucose metabolism in mouse skeletal muscles
M.H. TAN and A. BONEN **1133**

Tang, B.K.
N-Glucosidation of amobarbital in the cat
GIOVANNA CARRO-CIAMPI, MALLÉ JURIMA, DEZSO KADAR,
BING K. TANG, and WERNER KALOW **1263**

Tasse, D.
Variations in plasma motilin, somatostatin, and pancreatic polypeptide concentrations and the interdigestive myoelectric complex in dog
P. POITRAS, M. LEMOYNE, D. TASSE, L. TRUDEL, T. YAMADA, and
I.L. TAYLOR **1495**

Tattrie, B.
The renal handling of human urinary ribonuclease by rat kidneys
G. FARBOODY, B. TATTRIE, P.U. RIPPSTEIN, and E.Z. RABIN **619**

Tavoloni, N.
Biliary excretion of inorganic electrolytes: its role in hepatic bile formation
NICOLA TAVOLONI **1245**

Taylor, I.L.
Variations in plasma motilin, somatostatin, and pancreatic polypeptide concentrations and the interdigestive myoelectric complex in dog
P. POITRAS, M. LEMOYNE, D. TASSE, L. TRUDEL, T. YAMADA, and
I.L. TAYLOR **1495**

Tenenhouse, A.
Regulation of renal vitamin D hydroxylase activity in vitamin D deficient rats
M. WARNER and A. TENENHOUSE **978**

Thériault, G.
Skeletal muscle histochemical and biochemical characteristics in sedentary male and female subjects
J.A. SIMONEAU, G. LORTIE, M.R. BOULAY, M.-C. THIBAULT,
G. THÉRIAULT, and C. BOUCHARD **30**

Thibault, M.-C.
Skeletal muscle histochemical and biochemical characteristics in sedentary male and female subjects
J.A. SIMONEAU, G. LORTIE, M.R. BOULAY, M.-C. THIBAULT,
G. THÉRIAULT, and C. BOUCHARD **30**

Thiessen, J.J.
Valproic acid disposition in rabbits during chronic treatment with *Escherichia coli* endotoxin
J.J. THIESSEN, P.S. ALBRIGHT, J. BRUNI, and D. SURIA **315**

Thomson, A.B.R.
Cholesterol feeding impairs endothelium-dependent relaxation of rabbit aorta
R.L. JAYAKODY, M.P.J. SENARATNE, A.B.R. THOMSON, and
C.T. KAPPAGODA **1206**

Effect of chronic ethanol and food deprivation on intestinal villus morphology and brush border membrane content of lipid and marker enzymes
M. KEELAN, K. WALKER, and A.B.R. THOMSON **1312**

Jejunal uptake of sugars, cholesterol, fatty acids, and fatty alcohols *in vivo* in diabetic rats
C. HOTKE, Y. MCINTYRE, and A.B.R. THOMSON **1356**

Resection of rabbit ileum: effect on brush border membrane enzyme markers and lipids
M. KEELAN, K. WALKER, and A.B.R. THOMSON **1528**

Thorburn, G.D.
Inhibition of progesterone secretion by a 3β-hydroxysteroid dehydrogenase inhibitor in late pregnant sheep
GRAHAM JENKIN and GEOFFREY D. THORBURN **136**

Subcellular localization of oxytocin in the ovine corpus luteum
G.E. RICE and G.D. THORBURN **309**

Induction of premature delivery in sheep following infusion of cortisol to the fetus. I. The effect of maternal administration of progestagens
G. JENKIN, G. JORGENSEN, G.D. THORBURN, J.E. BUSTER, and P.W. NATHANIELSZ **500**

Thornhill, J.A.
Thermoregulatory responses of dystrophic hamsters to changes in ambient temperatures
M. DESAUTELS, R.A. DULOS, and J.A. THORNHILL **1145**

The role of the pituitary–adrenal axis in the hyperthermia induced by acute peripheral or central (preoptic anterior hypothalamus) administration of morphine to unrestrained rats
J.A. THORNHILL and W.S. SAUNDERS **1590**

Toal, C.B.
Blood pressure responsiveness during the development of hypertension in the conscious spontaneously hypertensive rat
COREY B. TOAL and FRANS H.H. LEENEN **1258**

Tolton, A.D.
Measurement and characterization of swine uterine estradiol receptors: the effects of puberty induction on estradiol receptors and corpus luteum function
ALEXANDER D. TOLTON, DANIEL L. GRINWICH, CARL J. BELKE, and MARY M. BUHR **214**

Török, T.L.
Transient inhibition of the muscarinic actions of carbachol during reactivation of the electrogenic sodium pump in guinea pig taenia caeci smooth muscle
TAMÁS L. TÖRÖK, SYLVESTER E. VIZI, and KÁLMÁN MAGYAR **663**

Touw, D.M.
The elastic properties of canine abdominal aorta at its branches
DEBORAH M. TOUW, M.H. SHEREBRIN, and MARGOT R. ROACH **1378**

Track, N.S.
Guar gum consumption in adolescent and adult rats: short- and long-term metabolic effects
NORMAN S. TRACK, MARGARET E. CAWKWELL, BETH C. CHIN, SUSAN S. CHIU, SEAN A. HABERER, and CHRISTOPHER R. HONEY **1113**

Tremblay, A.
Contribution of postexercise increment in glucose storage to variations in glucose-induced thermogenesis in endurance athletes
ANGELO TREMBLAY, ELIZABETH FONTAINE, and ANDRÉ NADEAU **1165**

Tremblay, J.
Primary versus secondary events in hypertension
PAVEL HAMET, JOHANNE TREMBLAY, STEPHEN C. PANG, SUSAN V. WALTER, and YUEN-I WEN **380**

Tremblay, R.R.
Arginine esterase from isolated dog prostate secretory granules is fully active enzymatically
GILLES FRENETTE, JEAN Y. DUBÉ, JEAN R. MARCOTTE, and ROLAND R. TREMBLAY **1603**

Triggle, C.R.
Introduction to Hypertensive mechanisms: the role of altered smooth muscle and membrane function in the etiology of hypertension
C.R. TRIGGLE **353**

A review of changes in vascular smooth muscle functions in hypertension: isolated tissue versus in vivo studies
C.R. TRIGGLE and I. LAHER **355**

Triggle, D.J.
Functional interactions between organic calcium channel antagonists in smooth muscle
F. YOUSIF and D.J. TRIGGLE **193**

Ca^{2+} channel antagonist actions in bladder smooth muscle: comparative pharmacologic and [^{3}H]nitrendipine binding studies
F.B. YOUSIF, G.T. BOLGER, A. RUZYCKY, and D.J. TRIGGLE **453**

Trudel, L.
Variations in plasma motilin, somatostatin, and pancreatic polypeptide concentrations and the interdigestive myoelectric complex in dog
P. POITRAS, M. LEMOYNE, D. TASSE, L. TRUDEL, T. YAMADA, and I.L. TAYLOR **1495**

Tuchek, J.M.
Benzodiazepine receptors and seizure susceptibility in epileptic fowl
T.E. FISHER, L.G. DAVIS, J.M. TUCHEK, D.D. JOHNSON, and R.D. CRAWFORD **85**

Evidence for the pharmacological relevance of benzodiazepine receptors to anticonvulsant activity
T.E. FISHER, D.D. JOHNSON, J.M. TUCHEK, and R.D. CRAWFORD **1477**

Tucker, A.
Pulmonary vascular responsiveness in cold-exposed calves
K.J. GREENLEES, A. TUCKER, D. ROBERTSHAW, and C.R. VADER **131**

Vaamonde, C.A.
Pathogenesis of hyperphosphatemia in lactic acidosis: disparate effects of racemic (DL-) and levo (L-) lactic acid on plasma phosphorus concentration
JAMES R. OSTER, HELEN C. ALPERT, and CARLOS A. VAAMONDE **1599**

Vader, C.R.
Pulmonary vascular responsiveness in cold-exposed calves
K.J. GREENLEES, A. TUCKER, D. ROBERTSHAW, and C.R. VADER **131**

Vaissade, P.
Metabolic and hormonal effects of test meals with various protein contents in pigs
A. RÉRAT, J.A. CHAYVIALLE, J. KANDÉ, P. VAISSADE, P. VAUGELADE, and T. BOURRIER **1547**

Valli, V.E.
Reconstituted halogenated hydrocarbon pesticide and pollutant mixtures found in human tissues: effects on the immature male Wistar rat after short-term exposure
J. GYORKOS, M.A. DENOMME, B. LEECE, K. HOMONKO, V.E. VALLI, and S. SAFE **36**

van Baardwijk, C.
Organization of medial elastin at aortic junctions in sheep and lambs
CHARLES VAN BAARDWIJK, SHARON E. BARWICK, and MARGOT R. ROACH **855**

Van Egmond, J.
The in vitro effects of benzodiazepines on the rat diaphragm. Structure–activity relationships
JACQUES J. DRIESSEN, JAN VAN EGMOND, TOM B. VREE, LEO H.D.J. BOOIJ, and JAN F. CRUL **444**

Variot, N.
Characterization of postjunctional adrenoceptor subtypes in isolated rat myocardial cells in culture
M. ETTAICHE, P. ATHIAS, N. VARIOT, and J. KLEPPING **1221**

Vaugelade, P.
Metabolic and hormonal effects of test meals with various protein contents in pigs
A. RÉRAT, J.A. CHAYVIALLE, J. KANDÉ, P. VAISSADE, P. VAUGELADE, and T. BOURRIER **1547**

Verdys, M.
Adenine nucleotide synthesis from inosine during normoxia and after ischaemia in the isolated perfused rat heart
J. Aussedat, M. Verdys, and A. Rossi **1159**

Veress, A.T.
Inactivation of atrial natriuretic factor in blood
Anthony T. Veress, Chee K. Chong, and Harald Sonnenberg **1615**

Vinay, P.
Renal extraction of glutamine from plasma and whole blood: studies in dogs and rats
P. Vinay, N. Khoury, M. Soowamber, and A. Gougoux **886**

Vizi, S.E.
Transient inhibition of the muscarinic actions of carbachol during reactivation of the electrogenic sodium pump in guinea pig taenia caeci smooth muscle
Tamás L. Török, Sylvester E. Vizi, and Kálmán Magyar **663**

Vogh, B.P.
Timolol plus acetazolamide: effect on formation of cerebrospinal fluid in cats and rats
Betty P. Vogh and David R. Godman **340**

von Schroeder, H.P.
Autoradiographic localization of binding sites for atrial natriuretic factor
H.P. von Schroeder, E. Nishimura, C.H.S. McIntosh, A.M.J. Buchan, N. Wilson, and J.R. Ledsome **1373**

Vornanen, M.
Effect of strontium on the contractile properties of postnatally developing rat heart ventricles
Matti Vornanen **9**

Vree, T.B.
The in vitro effects of benzodiazepines on the rat diaphragm. Structure–activity relationships
Jacques J. Driessen, Jan Van Egmond, Tom B. Vree, Leo H.D.J. Booij, and Jan F. Crul **444**

Vriend, R.
Cytosolic enzyme leakage from isolated smooth muscle preparations
Hans P. Baer and Richard A. Vriend **164**

Interaction of 2′,3′-di-*O*-nitro-5′-(*N*-ethylcarboxamido)adenosine with adenosine receptors in intestinal smooth muscle
H.P. Baer, R. Vriend, and A. Murji **449**

Adenosine receptors in smooth muscle: structure–activity studies and the question of adenylate cyclase involvement in control of relaxation
H.P. Baer and R. Vriend **972**

Walker, K.
Effect of chronic ethanol and food deprivation on intestinal villus morphology and brush border membrane content of lipid and marker enzymes
M. Keelan, K. Walker, and A.B.R. Thomson **1312**

Resection of rabbit ileum: effect on brush border membrane enzyme markers and lipids
M. Keelan, K. Walker, and A.B.R. Thomson **1528**

Walker, P.
Increased pituitary thyroxine 5′-deiodinase activity in adult rats rendered hyper- or hypo-thyroid during perinatal life
Peter Walker **279**

Neonatal hyperthyroidism alters submandibular gland epidermal growth factor response to thyroxine in the adult mouse
Peter Walker **1151**

Wall, R.A.
Central vasopressin in the modulation of catecholamine release in conscious rats
Kathryn A. King, Gordon Mackie, Catherine C.Y. Pang, and Richard A. Wall **1501**

Walsh, D.A.
A fast-twitch oxidative-glycolytic muscle with a robust inward calcium current
Richard C. Carlsen, Douglas B. Larson, and Donal A. Walsh **958**

Walter, S.V.
Primary versus secondary events in hypertension
Pavel Hamet, Johanne Tremblay, Stephen C. Pang, Susan V. Walter, and Yuen-I Wen **380**

Wang, S.-L.
Renal responses to atrial natriuretic factor during converting enzyme inhibition
Sue-Lin Wang and Joseph P. Gilmore **220**

Warner, M.
Regulation of renal vitamin D hydroxylase activity in vitamin D deficient rats
M. Warner and A. Tenenhouse **978**

Warren, B.L.
Characterization studies of a rat hepatic cytosolic androgen-binding protein
G.I. Sunahara, M.J.P. Finlayson, B.L. Warren, and G.D. Bellward **952**

Wasi, Y.
Regional and subcellular distribution of enzymes of branched-chain amino acid metabolism in brains of normal and diabetic rats
Margaret E. Brosnan, Ann Lowry, Yasmin Wasi, Martin Lowry, and John T. Brosnan **1234**

Watanabe, H.
Vagal effects on sinoatrial and atrial conduction studied with epicardial mapping in dogs: the influence of pacemaker shifts on the measurement of sinoatrial conduction time
Hidehiko Watanabe, Jean-Benoît Perry, Pierre Pagé, Pierre Savard, and Réginald Nadeau **113**

Webber, C.E.
The precision and accuracy of noninvasive measurements of total body calcium in the rat
D.J. Beachey, M. Wickham, and C.E. Webber **1252**

Webster, D.M.S.
Changes in isometric contractile properties of extensor digitorum longus and soleus muscles of C57BL/6J mice following denervation
D.M.S. Webster and B.H. Bressler **681**

Wellings, P.G.
Dopamine-stimulated parathyroid hormone release in vitro: further evidence for a two-pool model of parathyroid hormone secretion
David A. Hanley and Paul G. Wellings **1139**

Wen, Y.-I.
Primary versus secondary events in hypertension
Pavel Hamet, Johanne Tremblay, Stephen C. Pang, Susan V. Walter, and Yuen-I Wen **380**

White, M.
Effects of coronary sinus pressure elevation on coronary blood flow distribution in dogs with normal preload
Jacques R. Rouleau and Michel White **787**

Whitehouse, L.W.
Postabsorption antidotal effects of *N*-acetylcysteine on acetaminophen-induced hepatotoxicity in the mouse
L.W. Whitehouse, L.T. Wong, C.J. Paul, A. Pakuts, and G. Solomonraj **431**

Whyte, R.K.
Energy intake and the nature of growth in low birth weight infants
R.K. Whyte, H.S. Bayley, and J.C. Sinclair **565**

Wickham, M.
The precision and accuracy of noninvasive measurements of total body calcium in the rat
D.J. Beachey, M. Wickham, and C.E. Webber **1252**

Williams, E.F.
Affinity of calcium channel inhibitors, benzodiazepines, and other vasoactive compounds for the nucleoside transport system
James R. Hammond, Evan F. Williams, and Alexander S. Clanachan **1302**

Wilson, N.
Plasma vasopressin during increases and decreases in blood volume in anaesthetized dogs
J.R. Ledsome, N. Wilson, and C.A. Courneya 224

Release of atrial natriuretic peptide by atrial distension
J.R. Ledsome, N. Wilson, C.A. Courneya, and A.J. Rankin 739

Autoradiographic localization of binding sites for atrial natriuretic factor
H.P. von Schroeder, E. Nishimura, C.H.S. McIntosh, A.M.J. Buchan, N. Wilson, and J.R. Ledsome 1373

Wlodek, M.E.
Changes in pituitary responses to synthetic ovine corticotrophin releasing factor in fetal sheep
Laurie J. Norman, Stephen J. Lye, Mary E. Wlodek, and J.R.G. Challis 1398

Wollin, A.
Introduction to Advances in Histamine Research
A. Wollin 745

Quantitative determination of histamine metabolites by capillary gas chromatography
H. Navert, R. Bérubé, and A. Wollin 766

Wolowyk, M.W.
Changes in the cation composition and active K^+ transport in the red cells of fetal sheep prepartum
M.W. Wolowyk and J.C. Ellory 1454

Wong, K.M.
Effect of $1,25(OH)_2D_3$ on the relative contributions of skeletal ^{45}Ca and intestinal ^{40}Ca to blood calcium in normal and thyroparathyroidectomized dogs
LeRoy Klein and Kam M. Wong 606

Wong, K.
Effect of the calcium ionophore A23187 on superoxide generation in phorbol ester stimulated human neutrophils
Colette F. Strnad and Kenneth Wong 1543

Wong, L.T.
Postabsorption antidotal effects of *N*-acetylcysteine on acetaminophen-induced hepatotoxicity in the mouse
L.W. Whitehouse, L.T. Wong, C.J. Paul, A. Pakuts, and G. Solomonraj 431

Wright, G.L.
Partial purification of a hypertensive substance from rat erythrocytes
William D. McCumbee and Gary L. Wright 1321

Yahata, T.
Effect of food restriction on cold adaptability of rats
Akihiro Kuroshima and Takehiro Yahata 68

Yamada, T.
Variations in plasma motilin, somatostatin, and pancreatic polypeptide concentrations and the interdigestive myoelectric complex in dog
P. Poitras, M. Lemoyne, D. Tasse, L. Trudel, T. Yamada, and I.L. Taylor 1495

Yamaguchi, N.
Evidence for increased hepatic sympathetic nerve activity resulting in hyperglycemia in response to hemorrhage-induced reflex stimulation in anesthetized dogs
Nobuharu Yamaguchi 1209

Effects of (±)-sotalol, (±)-propranolol, and (−)-propranolol on norepinephrine release upon hepatic nerve stimulation in the dog liver *in vivo*
Nobuharu Yamaguchi 1423

Yang, C.-C.
Effect of alkylation of tryptophan residues on the enzymatic and pharmacological properties of snake venom phospholipase A_2
Eleonora Condrea, Karen R. Soons, Peggy L. Barrington, Chen-Chung Yang, and Philip Rosenberg 331

Yau, C.
Sugar uptake into a primary culture of dog kidney proximal tubular cells
C. Yau, L. Rao, and M. Silverman 417

Yoshikawa, K.
Potentiation of β-endorphin effects by cholecystokinin antiserum in rats
Shinji Itoh, Goro Katsuura, Kenji Yoshikawa, and Jens F. Rehfeld 81

Youngson, B.J.
Modulation of positive inotropy and metabolic coronary dilatation by myocardial α-adrenoceptors
Bruce J. Youngson and Jaime Talesnik 1513

Yousif, F.B.
Functional interactions between organic calcium channel antagonists in smooth muscle
F. Yousif and D.J. Triggle 193

Ca^{2+} channel antagonist actions in bladder smooth muscle: comparative pharmacologic and [^{3}H]nitrendipine binding studies
F.B. Yousif, G.T. Bolger, A. Ruzycky, and D.J. Triggle 453

Zamel, N.
Thoracoabdominal motion during hypercapnia, hypoxia, and exercise
K.R. Chapman, A. Perl, N. Zamel, and A.S. Rebuck 188

Zsigmond, E.
Role of diet fat in subcellular structure and function
M.T. Clandinin, C.J. Field, K. Hargreaves, L. Morson, and E. Zsigmond 546

Tryptophan phospholipase A2 alkylation snake venom 331
TSH secretion thyroid hormone newborn 279
Tubule kidney culture sugar transport 417
Tubule kidney dopamine formation 155
Tubule swelling muscle fiber excitation 879
Tubulin transport nerve axon Issue 4 av
TXA2 ductus venosus 1101
Uterus angiotensin structure activity 966
Uterus estradiol receptor puberty induction 214
Uterus stimulation Prostaglandin E2 Issue 4 ax
Uterus vascular permeability PGE2 cAMP 1052
Vagal area pressor response Issue 4 axxv
Vagal blockage esophageal peristalsis 122
Vagal stimulation atrial conduction 113
Vagosympathetic complex stimulation cardiovascular response 1122
Vagus cardiodepressor reflex heart ischemia 1560
Vagus cardiovascular pulmonary response cromoglycate 760
Vagus dopamine release kidney nerve 636
Vagus nerve blood pressure vasopressin 1612
Valproate pharmacokinetics Escherichia endotoxin 315
Vanadium lipid peroxide kidney 196
Vascular permeability uterus PGE2 cAMP 1052
Vascular resistance spinal response Issue 4 axxvi
Vascular response anemia hypoxia 782
Vascular smooth muscle function hypertension 355
Vasculature contraction methoxyverapamil calcium 495
Vasoactive agent nucleoside transport 1302
Vasoconstriction hepatic artery adenosine Issue 4 axix
Vasoconstrictor sensitivity blood vessel diabetes 52
Vasodilator circulation 1345
Vasopressin arginine plasma catecholamine Issue 4 axx
Vasopressin blood pressure vagus nerve 1612
Vasopressin blood vol 224
Vasopressin catecholamine release 1501
Vasopressin motor disturbance neuroanatomy Issue 4 axxii
Vasopressin motor disturbance prevention Issue 4 avi
Vasopressin plasma carotid sinus Issue 4 aviii
Vasopressin receptor pressor response Issue 4 axxv
Vasopressin secreting neuron hypothalamus Issue 4 axi
Velocity force const smooth muscle 48
Velocity force relation hypertension muscle 669
Velocity tension relation hypertension artery 675
Vena cava pancreas effluent Issue 4 axxx
Venom snake phospholipase A2 tryptophan alkylation 331
Venous occlusion prorenin activation Issue 4 axiv
Ventilation 148
Ventilation carbon dioxide inhalation Issue 4 axxix
Ventral septal area vasopressin Issue 4 avi
Ventricular arrhythmia catecholamine coronary occlusion reperfusion 1088
Ventricular left hypertrophy hypertension 304
Ventricular preload coronary blood flow 787
Ventrolateral medulla neuron input Issue 4 avi
Verapamil breathing ventilation chem regulation 1608
Verapamil heart calcium 1429
Vessel blood structure change hypertension 392
Vessel blood structure hypertension 387
Vestibuloocular reflex mental effort Issue 4 axvi
Vitamin D kidney hydroxycholecaciferol hydroxylase 978
Vitamin D3 calcium bone blood intestine 606
Voltage dependence transmitter action 825
Walking speed age change Issue 4 axv
Weaning liver glycogen synthase phosphorylase 143
Weaning metab diet review 538
Zero flow perfusion pressure skin 230
Zinc hippocampus kindling epilepsy 159
